ACCOLADE

Volume 5

*...amidst
a world in
turmoil*

St. Francis de Sales High School, where THE ACCOLADE came into being, shines into the night, peaceful, reassuring, solid. What could St. Francis have in common with this world in turmoil? The story that unfolds in these pages will make that connection crystal clear. This is a peaceful section of our globe. But what guarantee have we that a nuclear war will not shatter the peace that now reigns so serenely?

The clash of hostile ideologies, the conflict of competing economies, the emergence of new nations from primitive cultures, the wide spread poverty over much of our world — all these contribute to make our peaceful existence precarious indeed. Man in his short history on this earth, measured in geological time, has mastered all that stood in his way.

From a solitary hunter risking his life to survive in an environment teeming with hostile competitors in the animal world, man emerged as the most feared and awesome predator. In the domain of living creatures man became the master of all he surveyed. Now he stands face to face with his greatest foe — himself. If man cannot conquer himself, he will have conquered the whole world only to destroy it and himself.

The blinding light from the fire ball of a hydrogen bomb is the light of death from below. We must ever look to the light of God, Whose rays are the light of life from above. Throughout THE ACCOLADE the white light of divine radiation is a constant reminder of this eternal truth.

The Oblates Accept the Challenge of Our Times - Educate Youth

For the nuclear age
and all it implies

Where to, young man? Ever closer to a world which the following pages will realistically reveal. This is a ready made society in which we played no role, but it is an ever changing one whose future face we will help to fashion. We do not believe in the iron rigidity of historical process. We believe in the unconquerable power of man's spirit.

In his early history man became the master of his universe by reason of his manual dexterity, his warm blood, and his brain. Biological and psychological qualities have brought him this far. But now he is at the crossroads, perhaps at an impasse. Only the finest intellectual effort guided and controlled by high moral and spiritual purpose can assure the universal hope of a bright new world. We of St. Francis hope we have learned this basic wisdom. Let us look at actualities and realities, then, perhaps, we can look with clear eye to hopes and visions for the future.

A visionary but realistic JFK administered the oath of office, President of the United States.

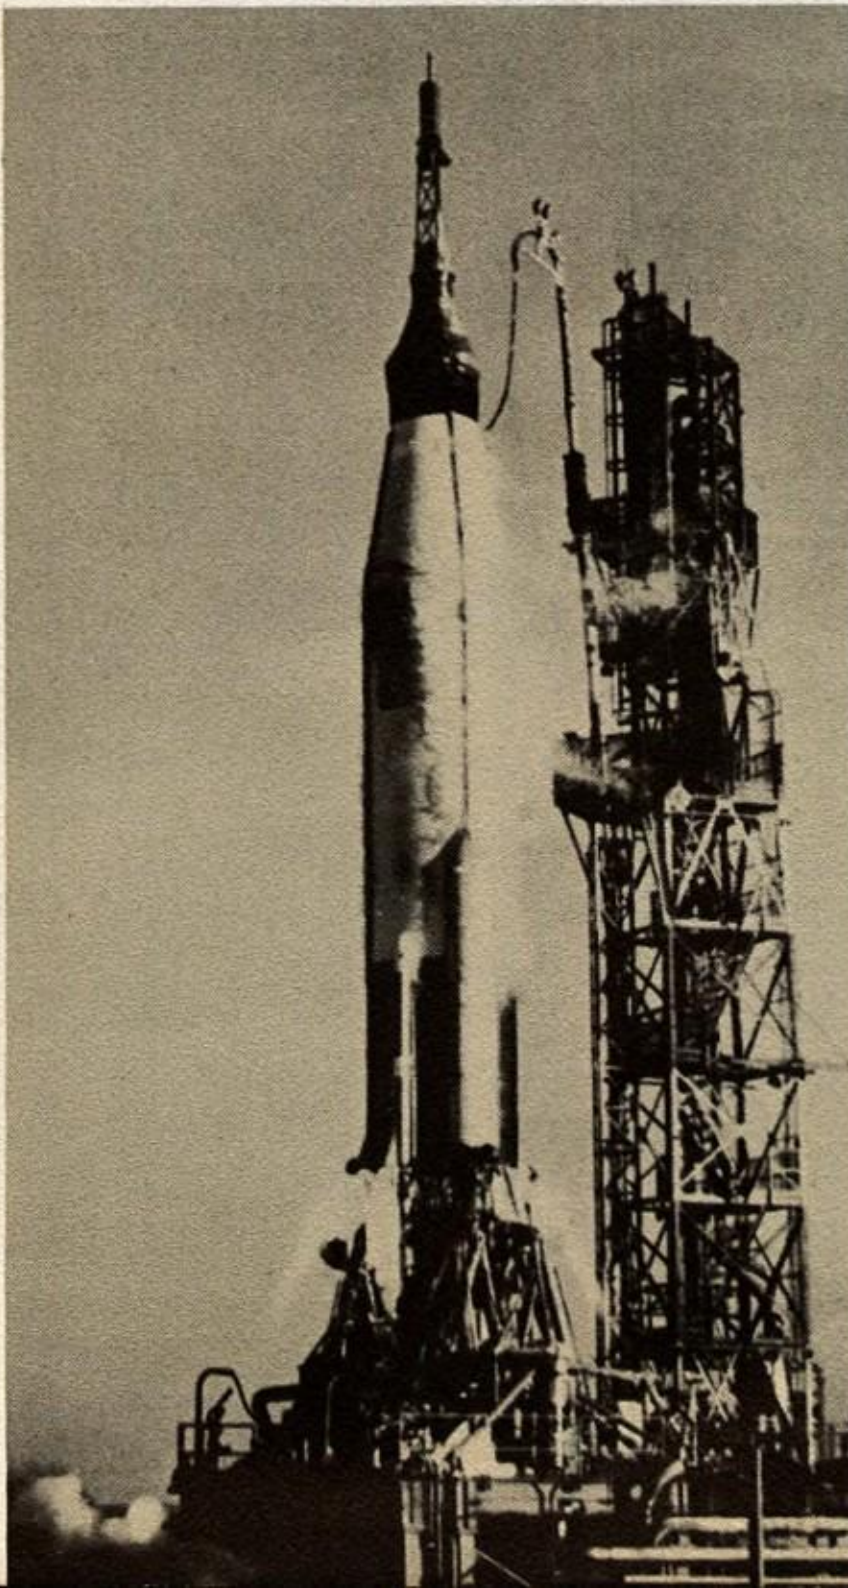

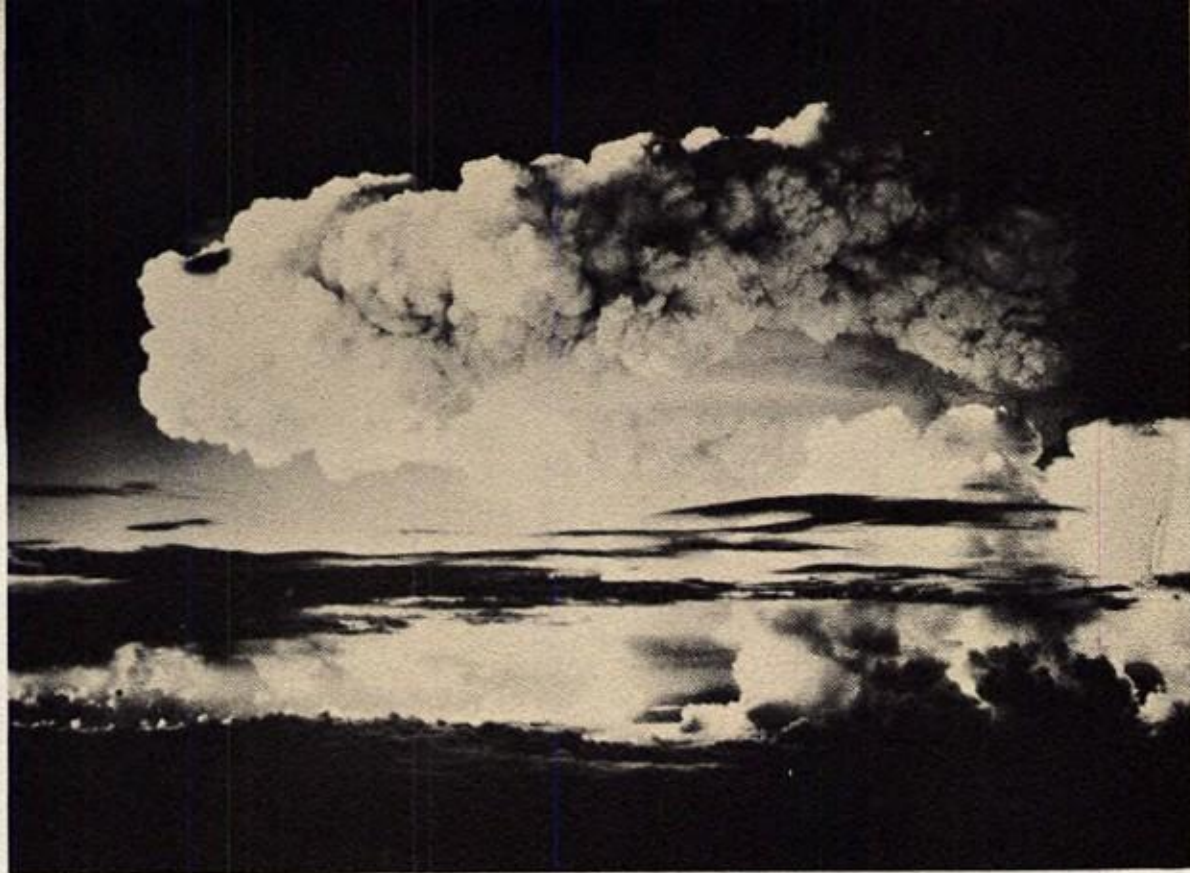

The Men Who Symbolize the Challenge of

**Our times and instruments
of the nuclear space age**

The marvelous inventions of modern technology and three men are woven into the pattern of our complex modern world. There are many more inventions and many other men. It is rather frightening to think that the fate of so many is in the hands of so few. Yet is it not the pattern of social and political evolution that progress in this area is reflected by the increase in the number of individuals who have a greater role in deciding their own fate and destiny? If this is true, it would seem the dialectic materialism of Communism is a step backwards. However, it is our firm conviction and hope that economic freedom in Russia and China will, with the years, bring about greater political freedom and with it personal and religious freedom. Thus, the abyss which separates us from them will be narrowed. Maybe in time enough for a bridge.

An I.C.B.M. poised to hurl a man into space to probe the mysteries of the universe or an H-Bomb to decimate a helpless city.

A man-made cloud that causes shivers to run up and down the collective spine of the human race.

A demagogic and bombastic Mr. C. arrives in New York.

An intractable and implacable Mr. K. brings his shoe to the United Nations.

The United Nations and Peace

**In a war-torn world
of riot, strife and fear**

This is an interesting page. Suppose we put ourselves with the power of our imagination in the United Nations Building and look out the window at this page. The hopes of millions of men for peace in the world are symbolized by this building, and yet looking out the window directly below us we see placards and faces stamped with the hatred of their memories.

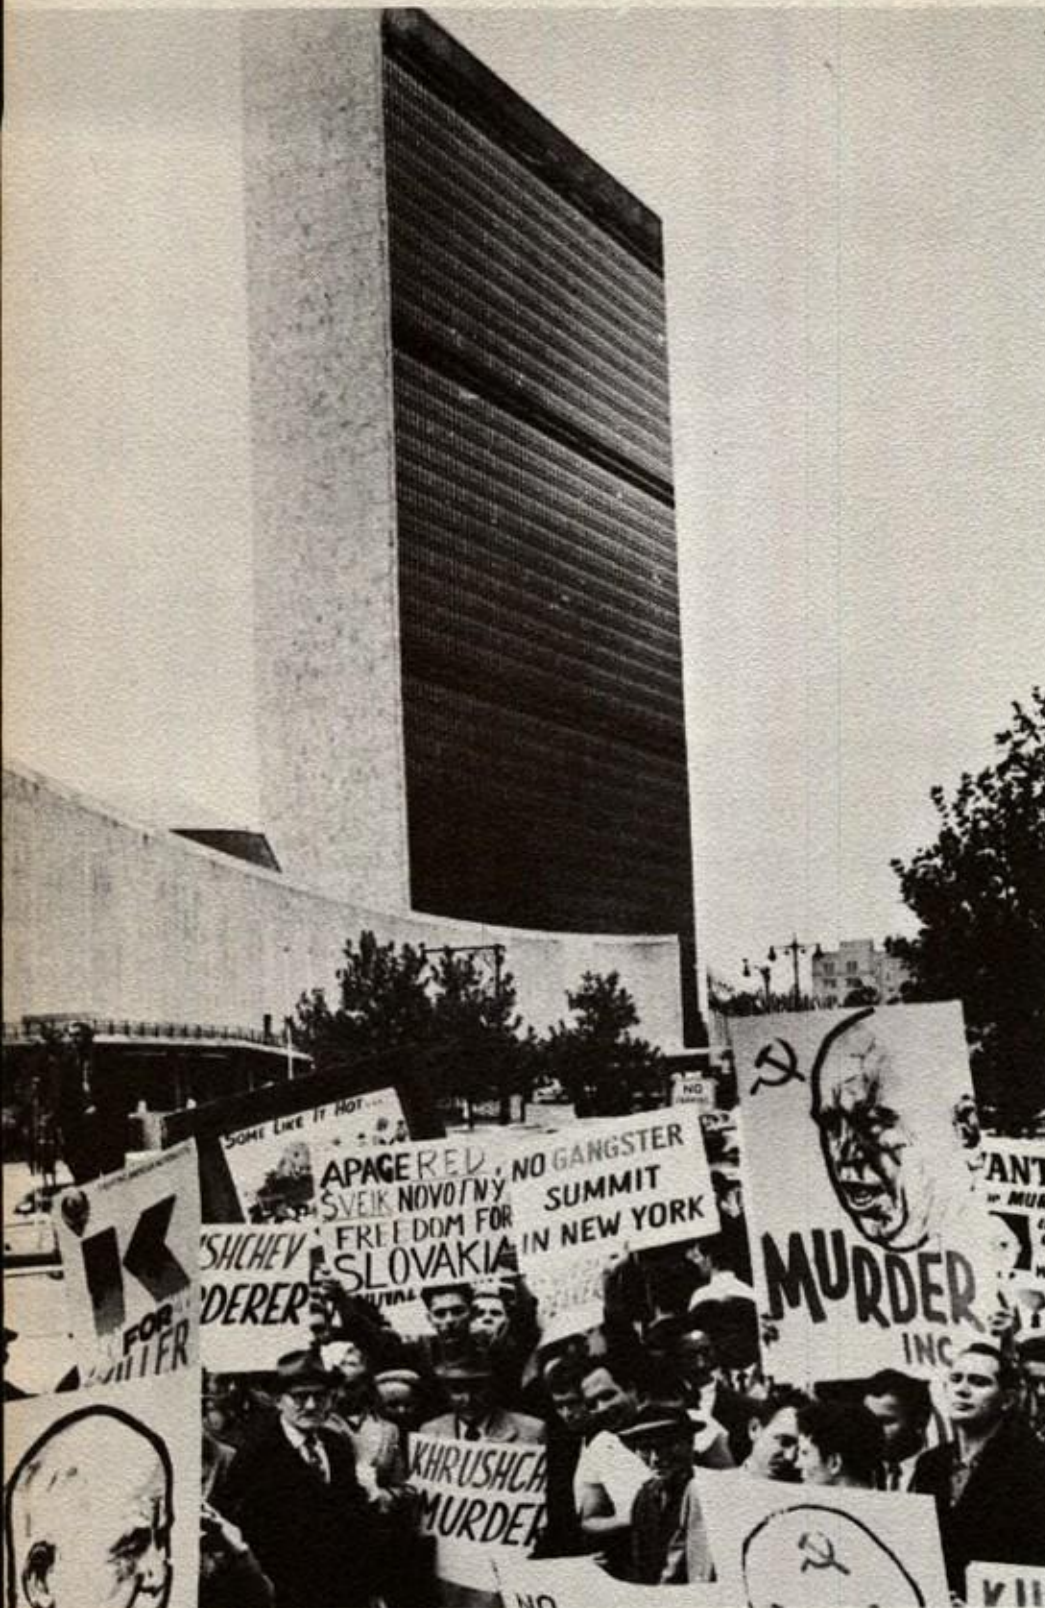

Looking beyond the boundaries of our own country we see rioting in Ecuador, war in the Congo, war in Laos.

Have we put our hopes for peace in the hands of an illusion which we know as the United Nations? Let us look at the facts. The military authority, the U.N. Police Force, is too weak to impose peace on the world by force. But this is not the real tragedy.

Composed of nations which are nurtured by conflicting ideologies no one moral code can be universally recognized. Thomas Aquinas, Luther and Kirkegaard are not compatible with Karl Marx and Lenin, not to mention the ethical systems of the Far East.

In the place of moral law there has been substituted 'enlightened self-interest' and world moral opinion to fill the void. The result has not been too happy.

Should we scrap the United Nations? No! It is man's only hope for world order and peace, but the U.N. needs help. Let us rally to its aid the great spiritual and religious forces of mankind so sorely needed to supply the moral authority without which it is doomed.

Reflected in the shadow of the United Nations Building is the fear and unrest of captive nations.

Tyranny Breeds Hatred

Ecuador Rioters Overturn Truck

Rioters ranging through the streets in Guayaquil, Ecuador, overturn a light truck in front of the municipal palace in the center of the city. After turning the truck over they set it afire.

They Took Over in Congo Village

Baluba tribesmen took up this pose with bows and arrows in Manono, Katanga Province, after ousting the village authorities. These Congo tribesmen have taken a stand against the government of Katanga strongman Moise Tshombe.

Hillside Briefing in Laos

A patrol from the Second Paratroop Battalion of the Laotian army is briefed on a hillside in Sam Neua Province in Laos. Supplies for the Royal Government troops operating in the remote province across the jungle hills from North Viet Nam must be air-dropped.

Christian Unity Must Unite All Men

**In the fight
against Communism**

Throughout history the great religions have been splintered by divisive forces that have weakened them as a great collective moral and spiritual power in world affairs.

The pictures on these pages should convince us that the measure of unity necessary for concerted, collective action in the spiritual and moral spheres is not a vain, idle dream.

The Holy Father as the focal point for unity among religious faiths would herald the advent of a new and happier era in man's history. It is not meant that religions are to be melted down and fused into one super-religion, but rather that in retaining their individual identities they are as one in achieving spiritual objectives. We Ever Depend on Our More Now

The Church moves slowly but surely. Contrary to the beliefs of some, she is not "old-fashioned — behind the times". She has kept pace with progress and has always been its champion. This spirit is evidenced in her leaders and particularly in her educational system. The Oblates of St. Francis de Sales, a small part of that system, are most conscious of the important part they play in educating youth to live in a world of turmoil. At no time as much as now have the virtues of St. Francis de Sales, our patron, been so needed — gentleness and humility. Today the only way to peace and happiness must be through unity in Christ, Light of the World.

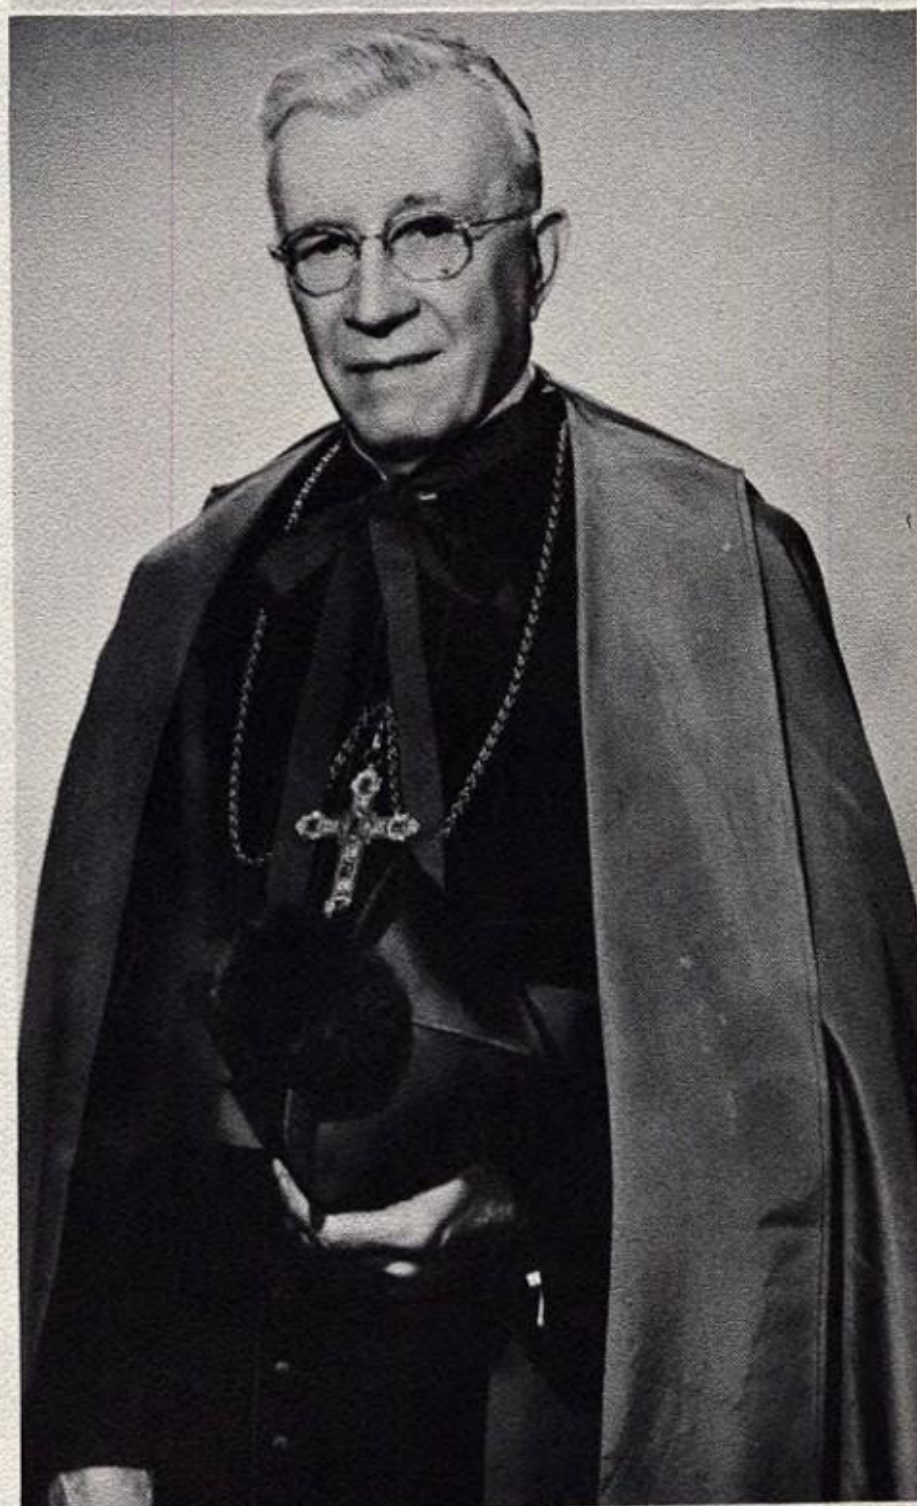

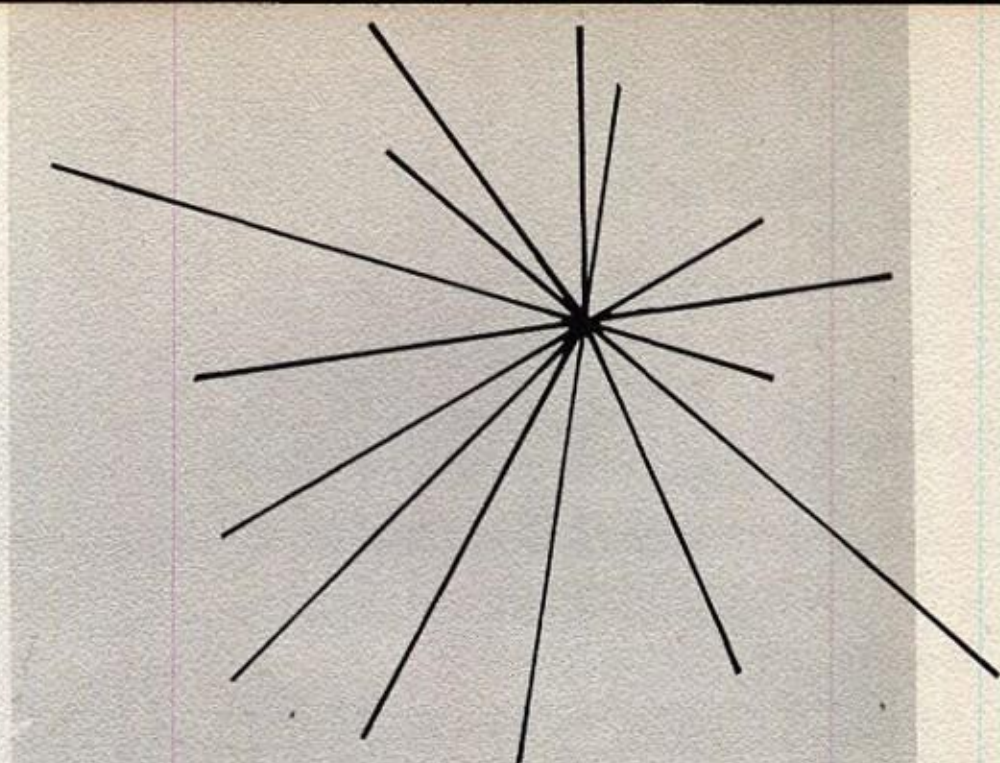

Father Buckley in avid conversation with His Holiness, Pope John XXIII.

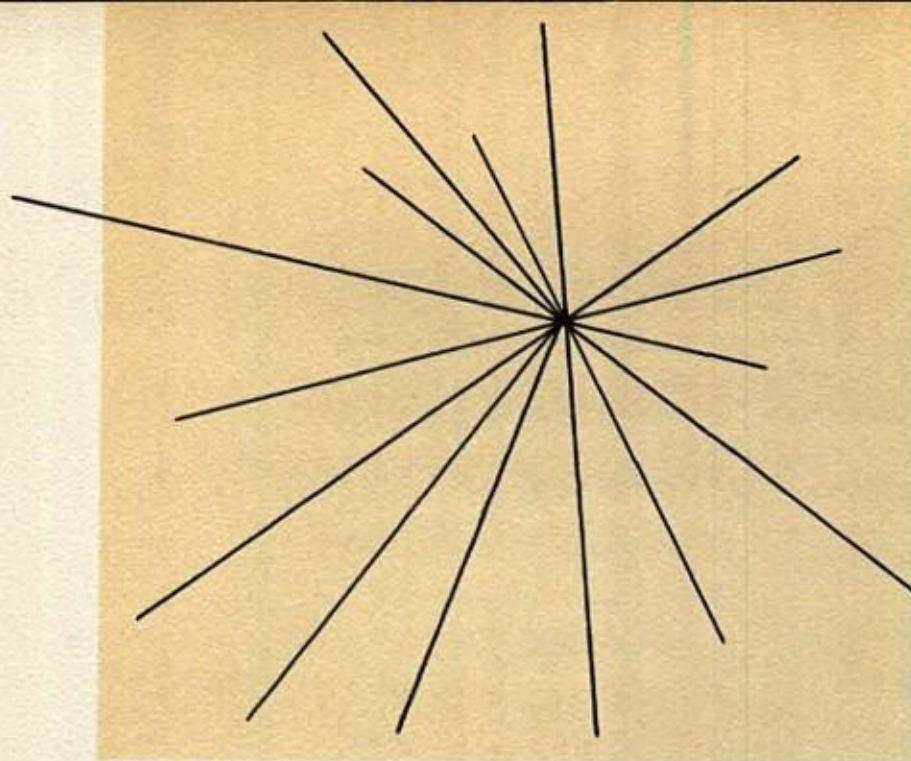

Spiritual Leaders in a World in Ferment

The Oblates at St. Francis are fully aware of the need of preparedness in a world of uneasy peace. Aside from moral training it is necessary to train our youth to cope with world problems. Accordingly, a two year Russian course was introduced last year and may be extended to four years. Air-borne television has been installed in order to offer to the students advanced science courses. Advanced mathematics courses are available for the more adept student. In order to acquaint our students with the languages, customs and traditions of our European neighbors we have instituted our Exchange Program with Ecole St. Michel in Annecy, France.

The Most Reverend George J. Rehring, Bishop of Toledo, has expressed the need of Christian Unity in the light of world problems.

Visit the Charm of the Old World

Ever ancient, ever new. TV aerial and bricks needing mortar . . . the canal winding through ancient Annecy.

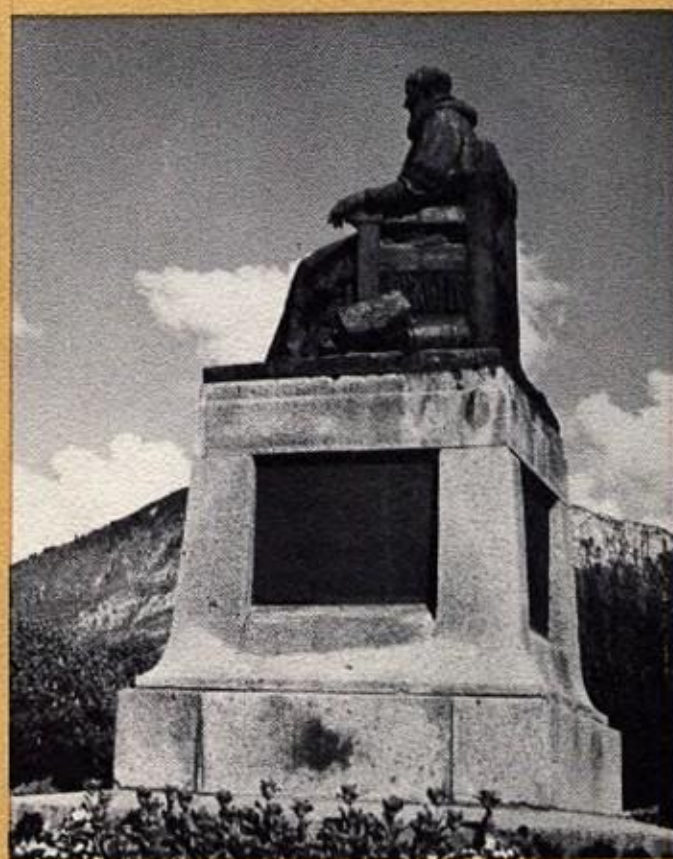

Basilica of St. Francis de Sales and 'ten pioneers'.

This is the charming old town of Annecy deep in the Alps of Upper Savoy. Here the ancient and the ultra-modern stand side by side. St. Francis de Sales is the most famous citizen of Annecy and one can retrace the steps of this illustrious saint and doctor of the Church by taking a walk through this quaint old town.

The magnificent Basilica of St. Francis de Sales where repose the bodies of our patron and of St. Jane de Chantal dominates the city and the surrounding countryside and its picturesque towns.

Situated on the beautiful lake of the same name, Annecy is a popular French summer resort. In the winter the entouring mountains provide many delightful ski slopes. Chamonix and Saint Gervais are practically speaking only a stone's throw away.

However, the basic reason for choosing Annecy as the site for our Exchange Program was because here the French Oblates of St. Francis de Sales conduct an excellent school. Ecole Saint Michel has the reputation of being one of the finest private schools in France. Being taught by Oblates would also insure continuity in their education and provide the proper care and supervision which young boys need. The Program has proved a success, and the ten boys participating have had a wonderful and fruitful experience. Their replacements are looking forward to next year.

Ecole Saint Michel Receives the Knights

Where years ago
knighthood flourished

If we were to judge hastily from these pictures probably the first question that would come to mind would be: "When do they study or do they?" The answer is definitely: "Yes! They do study." The thinking behind the "Exchange Program" was that the younger a student is the more apt he is to pick up a foreign language. Practically all colleges and universities have exchange programs but this is rare or non-existent on the high school level. St. Francis de Sales High School thought that the time for talking had reached its limit and the time for doing something was at hand. So! ten noble knights known as the pioneers are deep in study at the Ecole Saint Michel. It is difficult and it is a challenge that can tap the reservoirs of the human potential. Sure the pioneers study hard, particularly to master the French language, but they also live and play in another culture and in another world where they cannot fail to be influenced by a profound and meaningful experience.

The Nerve Center

Where policies are
formulated and
decisions are made

Any seasoned educator will tell you that the quality of a high school is a direct result of the capability of its faculty. At St. Francis, we have a group of men who are unsurpassed in their ability to guide young people and to help them contend with the problems they face. A student can turn to one of the priests at any time for encouragement, sympathy or advice. They have learned through skill and experience how to deal with teen-age worries and are willing to sacrifice their time to reassure unsteady minds and dispel doubts. With gratitude and confidence we look to our faculty and count ourselves fortunate to be associated with them as we face this World in Turmoil.

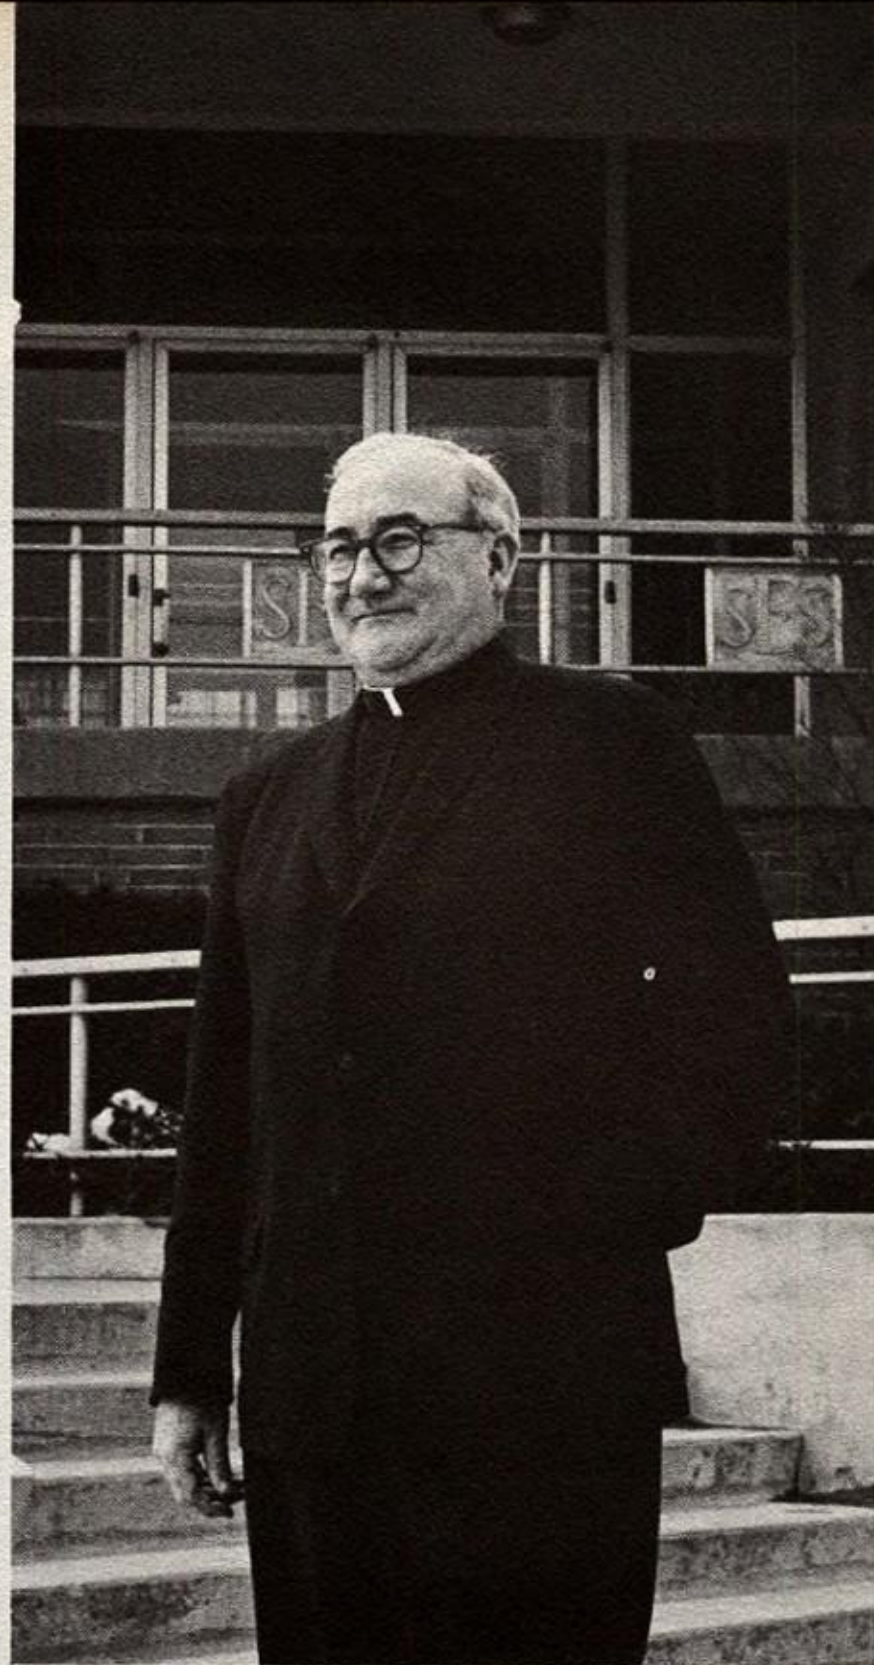

The Oblates

Educate, inspire, challenge
us to greater heights

Adolescence is the most important stage of our development — physically, intellectually and morally. What we are as we emerge from our adolescent state, *that* we usually are for the rest of our lives. For this reason our high school education is most important. It is for this reason that our parents have sent us to St. Francis.

The Oblates have behind them a wealth of experience in educating youth. Their aim is to educate the whole man. What good does it do if a youth is schooled intellectually, trained physically and not spiritually?

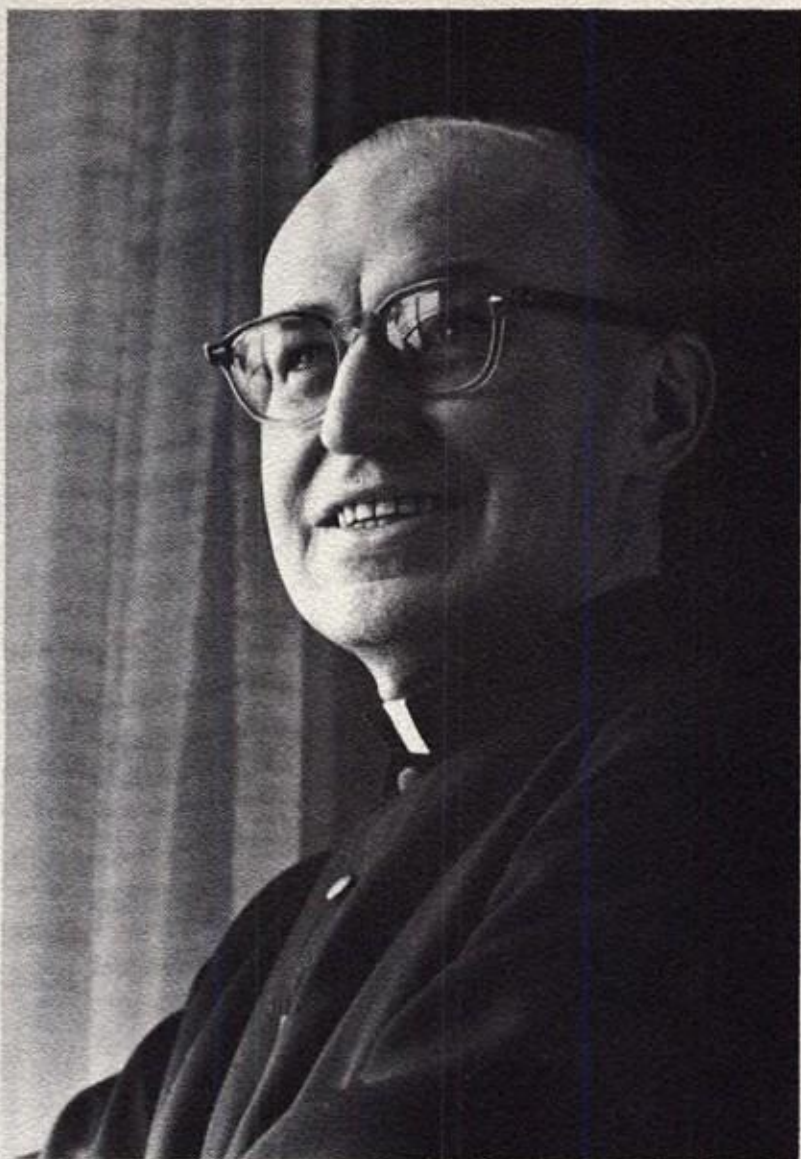

His mind and soul are a vacuum. His primary purpose is to return to God. Everything on this earth is placed at the command of man in order to help him obtain this end. It is the function of the Oblates, then, to see that we avail ourselves of all things that are for our intellectual, spiritual and physical good. To bring to fruition those potentialities which may be latent within us — to challenge us — to train us to speak for ourselves — to seek, on our own, answers to problems — to stir to flame, the faint spark of inventive genius — to train us in self-discipline — to make us aware of our social obligations, not only to ourselves, our family, but also to our nation and to the world. We might say then that the task of the Oblates has been to prepare us to take our place in the World in Turmoil.

Ad Deum Per Scientiam

Cultivation of the mind
is food supplied for the soul
of man

"To God through knowledge." This motto of the Honor Society sums up our purpose in school and in life — to see God.

However, we do live on the earth; we must face the problems that arise as part of life. Everything we do must prepare us to take our rightful place in society, to contribute something to society, that is, to prepare us intellectually, morally and physically to cope with these problems.

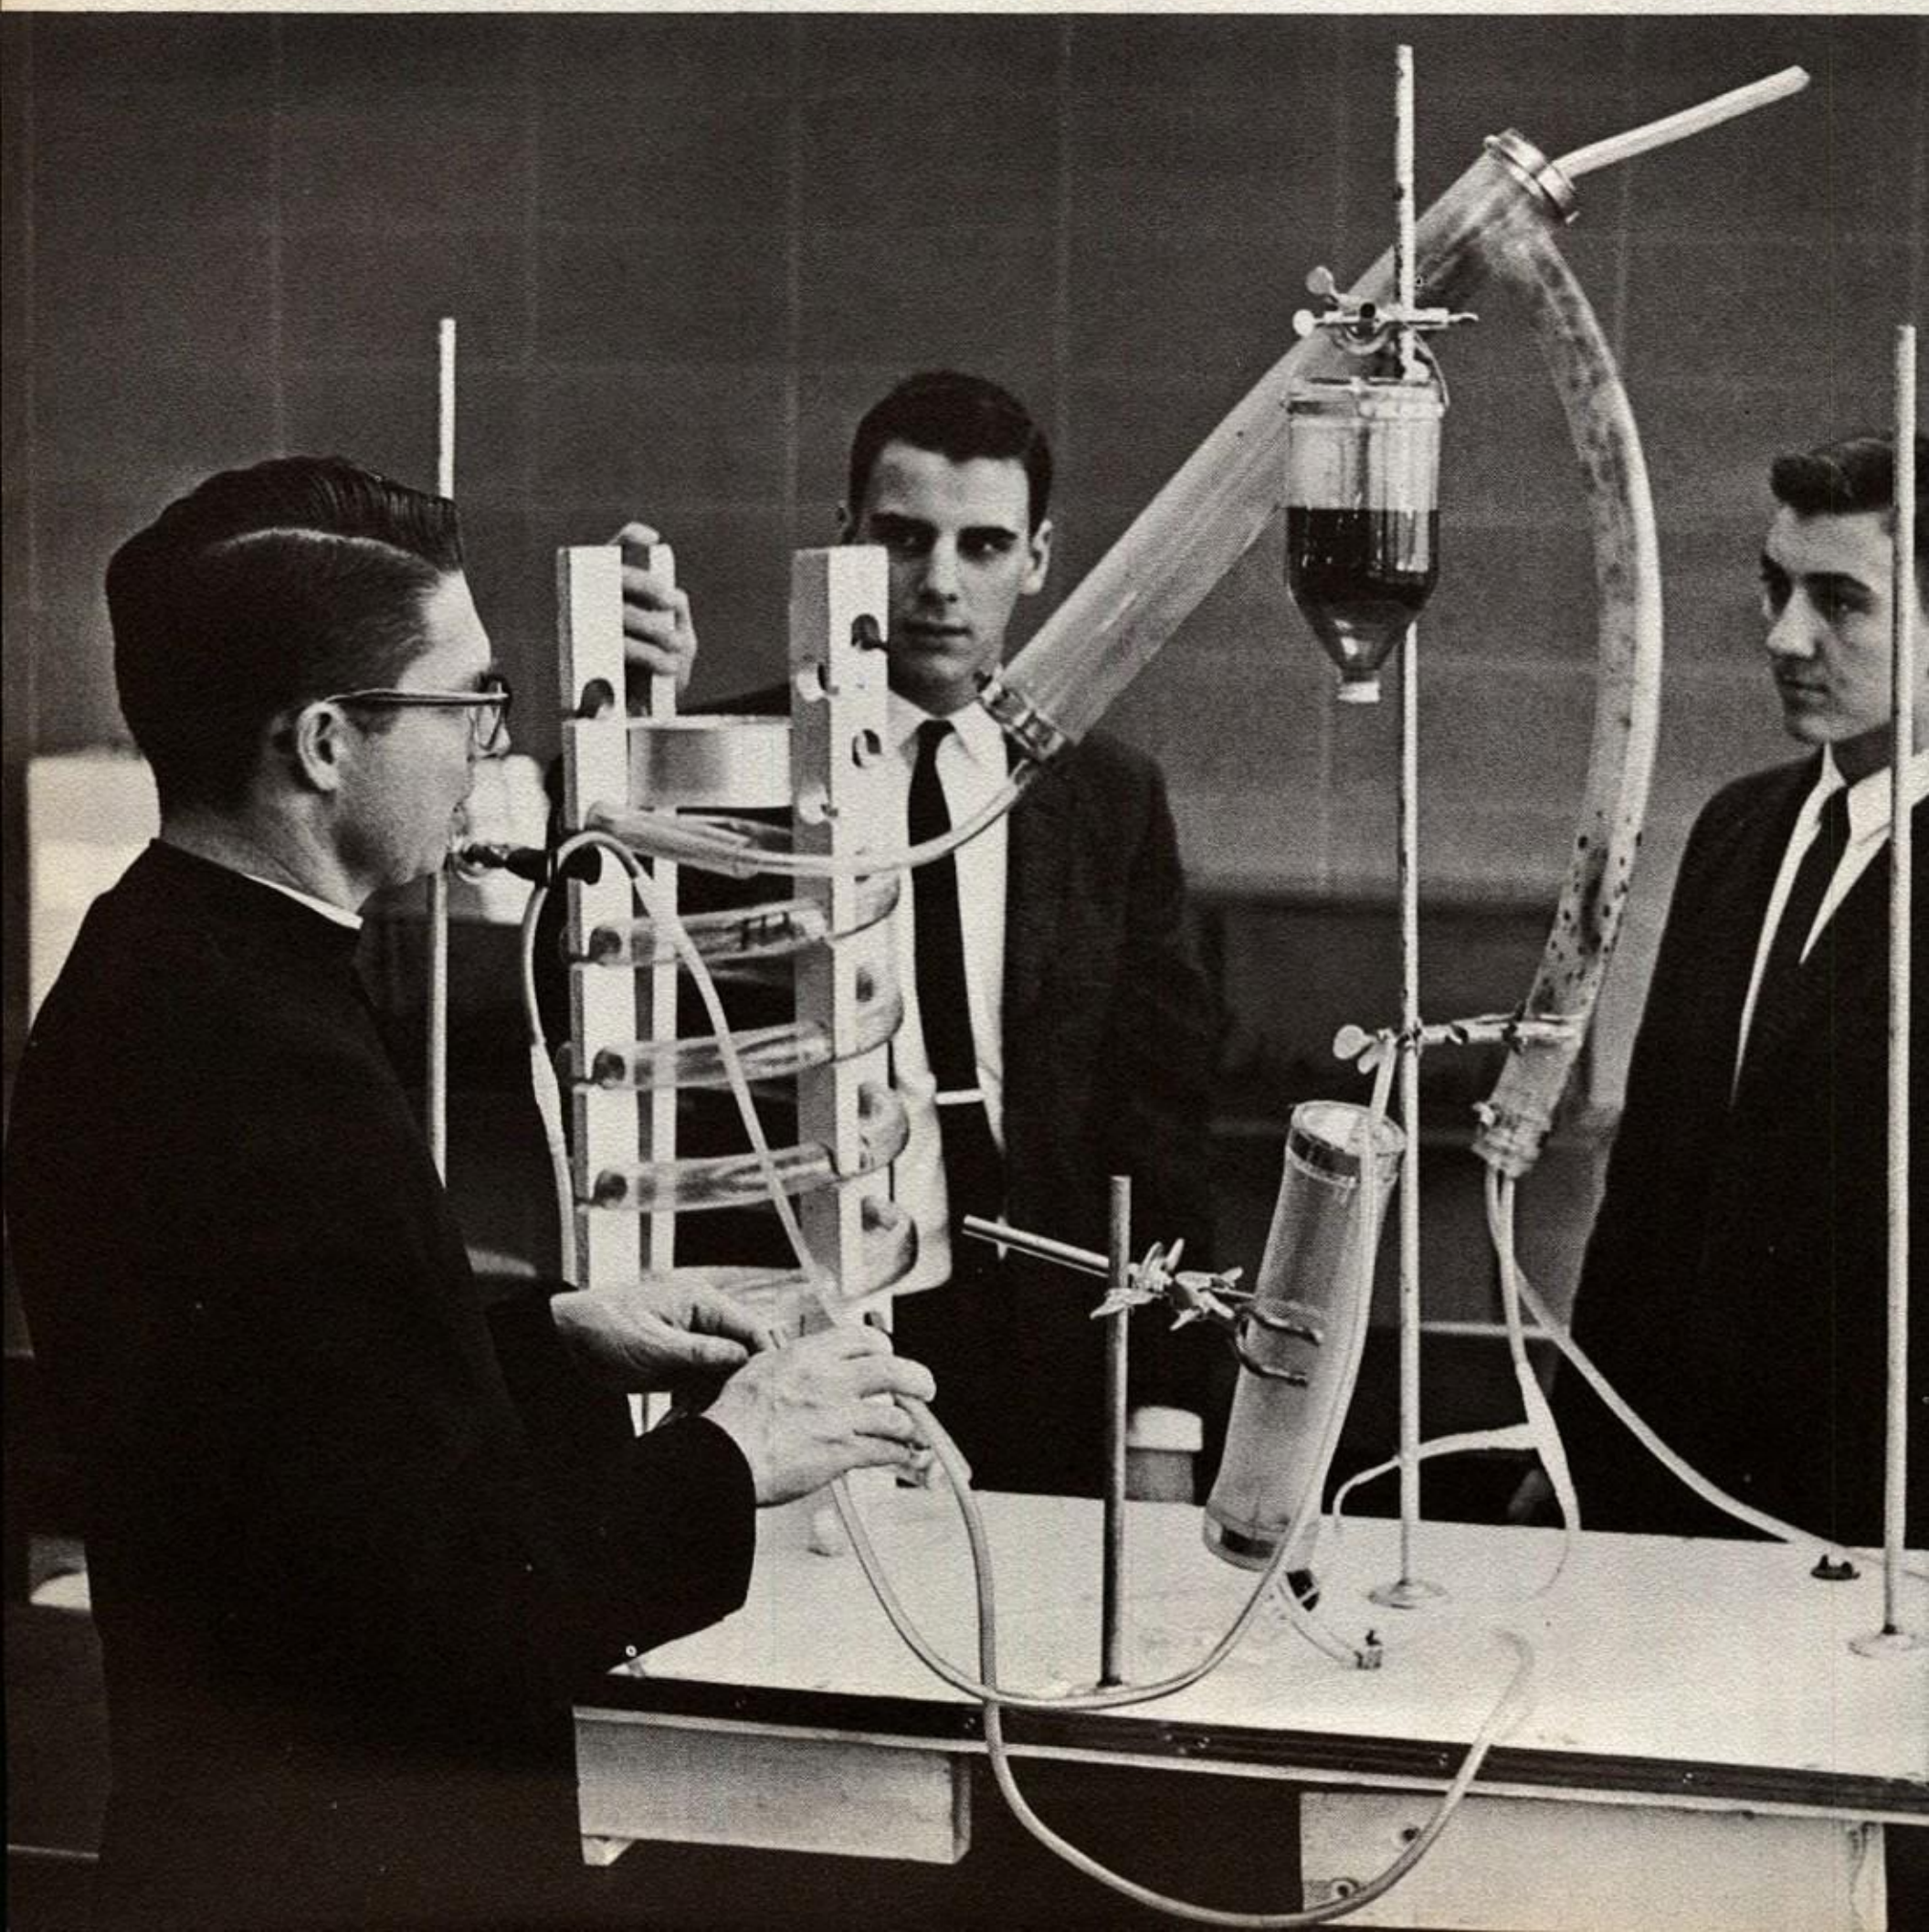

In every generation there is a predominant issue — for us today it is an uneasy peace, cold war, strife, unrest, Communist influence. This is our problem. For this the Oblates have prepared us by integrating our curriculum with Airborne Television, Language Laboratory, Russian, Advanced Mathematics and our Exchange Program, aside from the standard preparatory course. With this background we are well prepared to face the World in Turmoil.

In October 1961, the Annual College Night was held at St. Francis. This has proved most valuable to upperclassmen who are still uncertain of their college and are seeking information and advice. Under the direction of Father Brennan, sixteen universities, including the military academies, were represented. The program enabled a student and his parents to

attend three discussion periods and have their questions answered concerning admission, finances and curriculum. The evening was reckoned a great success and College Nights in the future can be expected to follow suit. Here at St. Francis, we enjoy immense spiritual opportunities and privileges. The student has only to take advantage of them to gain many benefits.

The school founders realized that the foremost objective of a Catholic education is to grow in holiness and spiritual stature, and accordingly organized the curriculum around re-

ligious activities, which are necessary for the spiritual formation of every Knight of St. Francis.

The Annual Retreat, during Holy Week, is to assemble in our minds the true sense of values and help us realize our proper perspective. In the midst of these opportunities there is no reason why a St. Francis student should not emerge from this school a holier and better man.

With the startling sound of the final bell the students rush for their lockers. But this is not the end of the school day for the bell heralds the beginning of another series of activities. Besides the purely academic pursuits at St. Francis, there is another area which offers the student the opportunity to use and develop his talents, to satisfy his interests, and therefore to emerge a well-rounded, educated man. This is the excellent system of extra-curricular activities in our school, by which anyone can determine his aptitudes and extend his abilities.

Since, as St. Francis tells us, man is a social animal, he must be schooled in the art of associating with other people. These after class activities are an excellent method for the development of this talent. Every student who has participated in them has realized their value and advantages in preparing him to take his place in the World in Turmoil.

Band Of Distinction . . .

The band at St. Francis has taken on a new look during the past year. Under the able leadership of Father Joseph McKay, Band Moderator, and Mr. Edward Zapletal, Musical Director, it has expanded to over fifty members, of which, twenty are freshman. We have obtained new instruments and new uniforms both of which have helped greatly to improve the band's quality. The recently formed Band Boosters Club has been of invaluable assistance and support in aiding this modernization program.

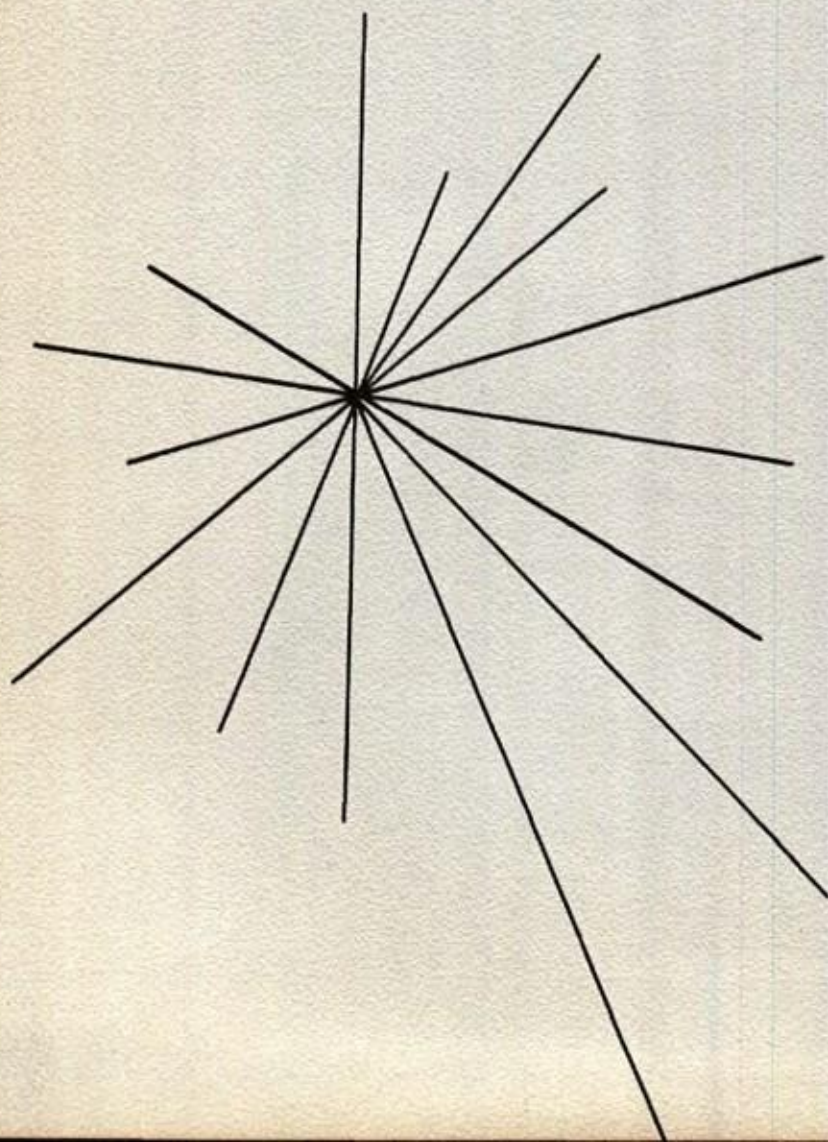

Band activities are a year-round project. Practices for the half-time shows given at football games, begin in the summer months. When school begins, practices are started for the plays, concerts and other activities of the coming year. The members work at least an hour a day after school, often longer. In addition many lunch and study periods are surrendered for the sake of excellence.

The band gave its first concert in the history of St. Francis, Monday, March 12, 1962, before a large audience in the school auditorium. Long hours of labor paid off with the sound of the first trumpet — they played everything from jazz to symphony.

For Sergeants

On May 5th and 6th, 1961, Private Will Stockdale took over and brought about, if not the demoralization, at least the frustration of the United States Armed Forces, in the comedy **NO TIME FOR SERGEANTS** directed by Father Walter Dean. The many exploits connected with how Will got his medal from a real live General, provided the sometimes earthy humor.

Bill Sutts, as Will, amiably and professionally weaved a spell of laughter, aided by John Weglian, the much put-upon Sergeant King, Tom Welch, Bill Webb and a cast of over twenty-five talented Knights.

The stylized set of Father Paul Francis and his stage crew added much to the lightness and gaiety of the production.

With the presentation of **NO TIME FOR SERGEANTS**, St. Francis followed the tradition of having at least one all-male dramatic presentation a year.

Directed by Father Walter Dean with sets by Father Daniel Earley, HARVEY played to the largest audience ever attending a St. Francis show — over 1500 for both evenings.

The Accolade

A staff meeting is held by Father Earley, Yearbook Moderator, to discuss layout changes with T. Maloney, R. Pickens, R. Bukowski and M. Sauer.

The opening day of school in September also opened the doors of a top secret room. "What goes on in there?" was the oft-repeated question. This book is the result. Our purpose was to produce a new book — in size, format and in content. From September to March it was rush, rush, copy, pictures, names. Since our yearbook covers from March to March it had to be finished by the end of March. We made it due to the hard work of R. Bukowski, Yearbook Editor, T. Maloney, Copy Editor, M. Sauer and D. Beck, Layout Editors, R. Pickens, Photography Librarian and T. O'Rielly, photographer, Junior Class. We say "Deo Gratias!"

Keeping both the students and the faculty informed on the latest school activities, sports news, and thought provoking editorials was the task of the Lance Staff this year. Even though close deadlines had to be met and other similar problems arose, the staff did an excellent job of publishing and editing a total of eight issues.

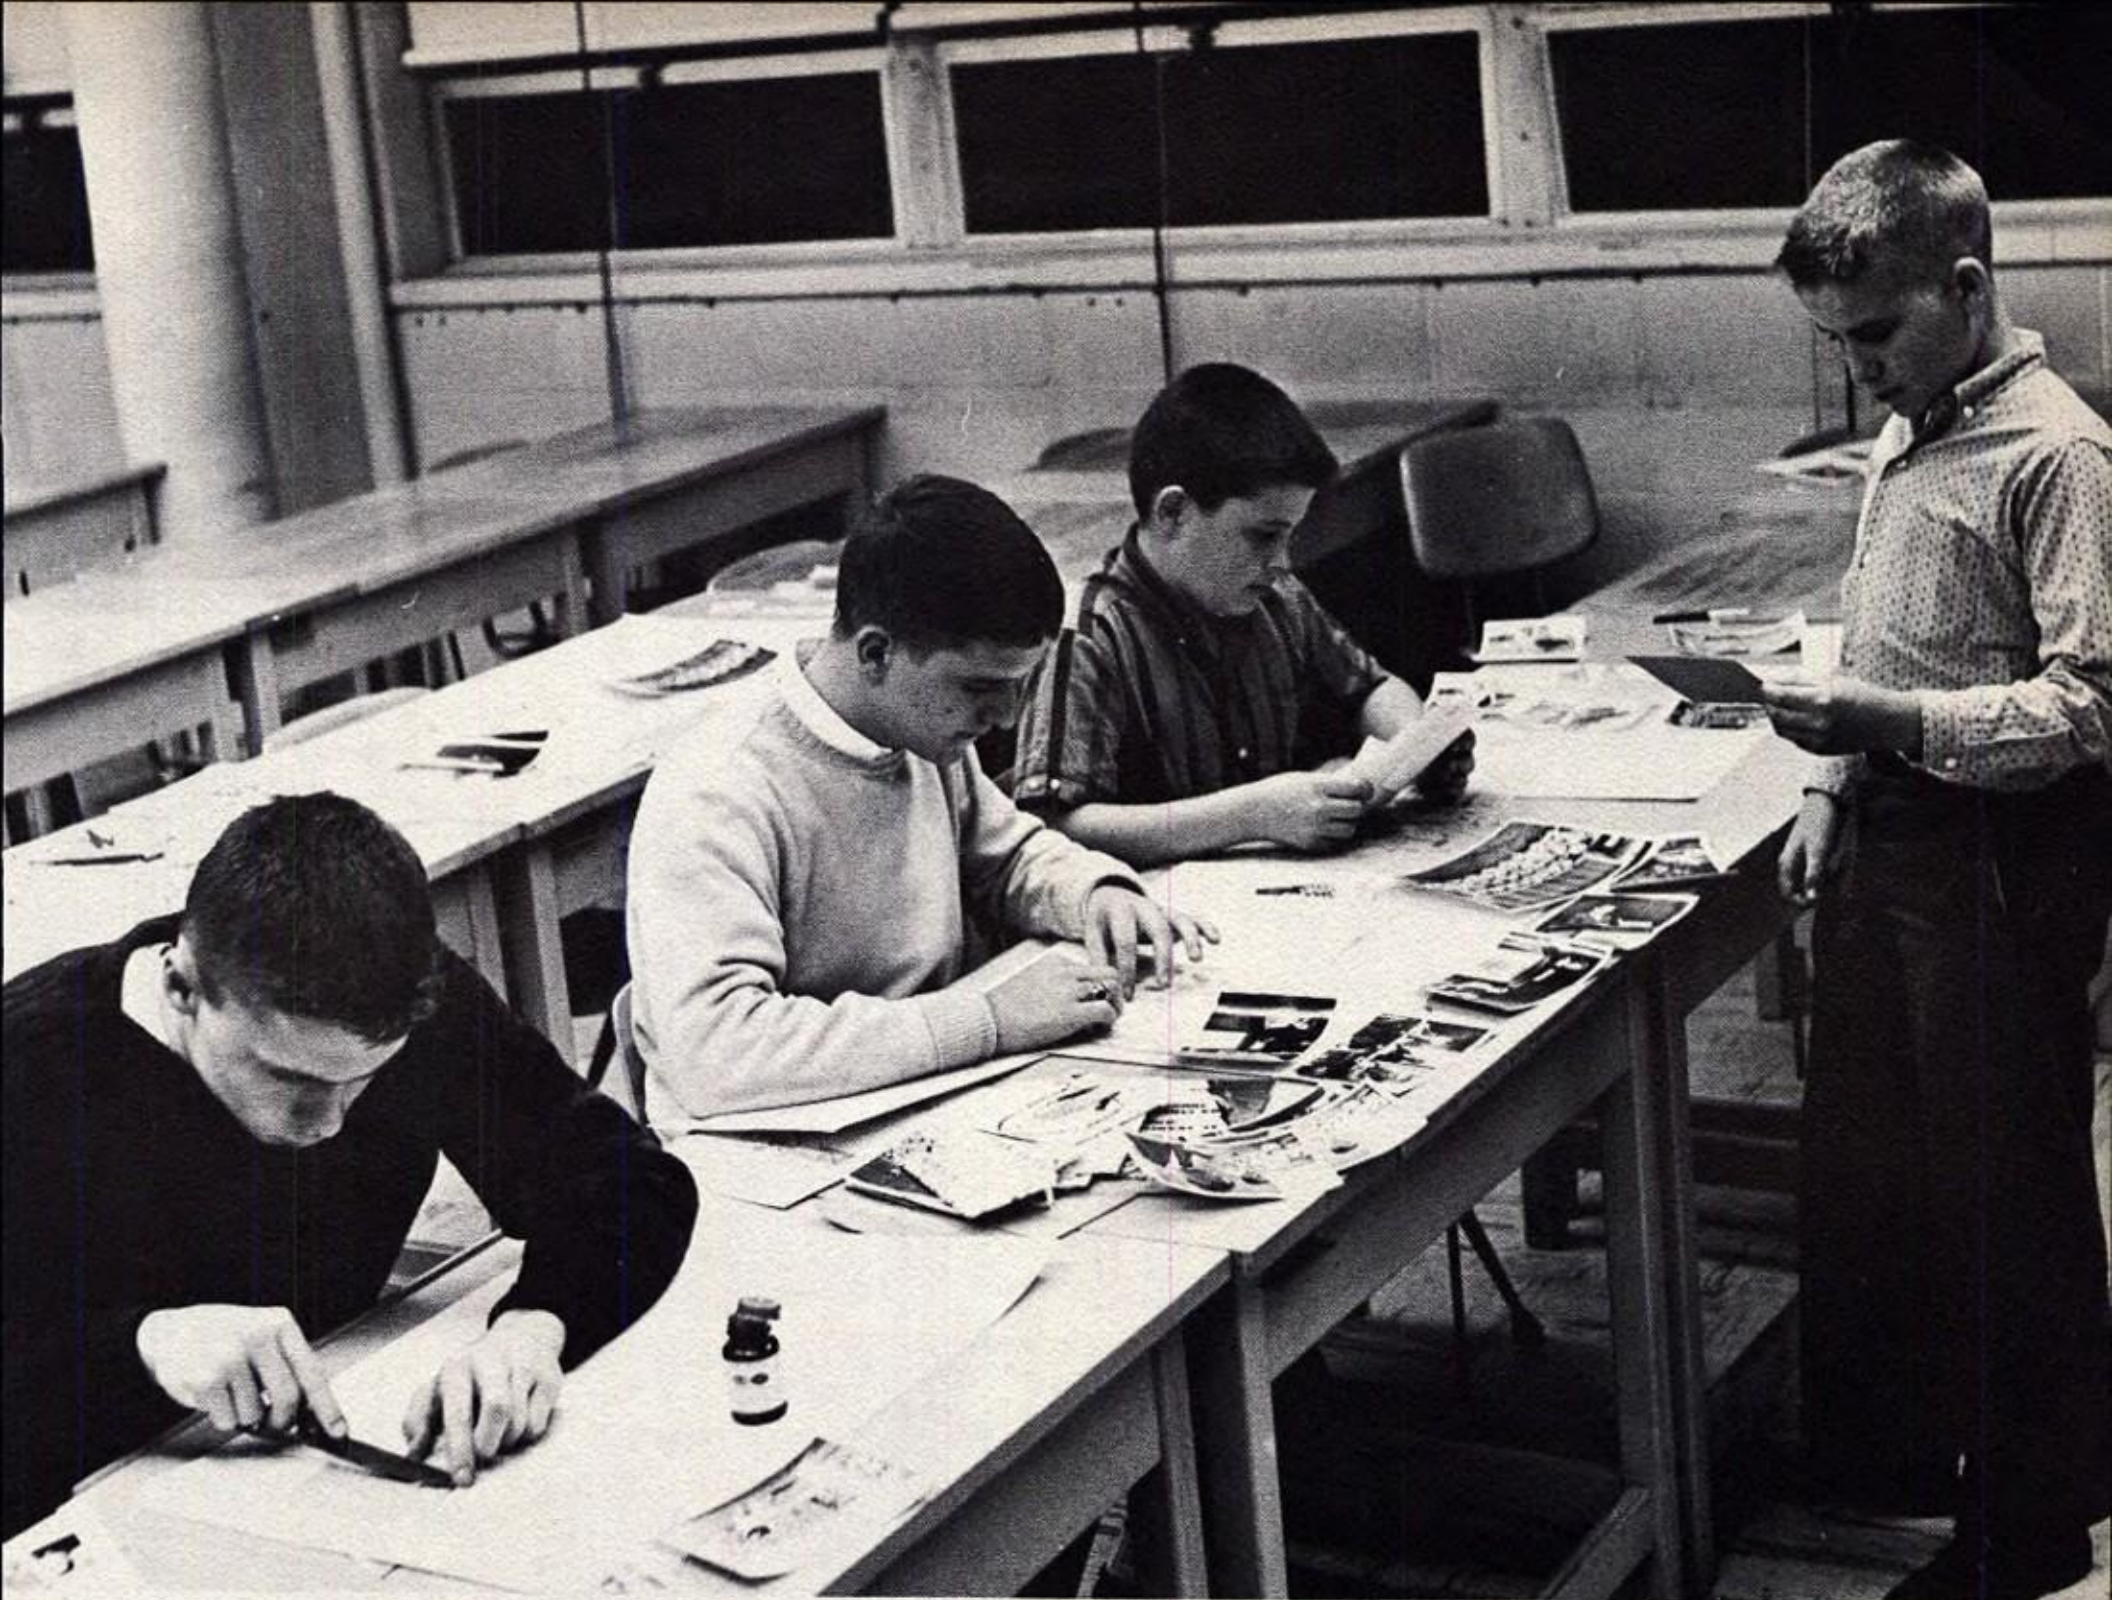

The staff was happy to welcome its new moderator, Father Robert Hermley, who worked along with the editor-in-chief, John Stanford. The news department was headed by Larry Ryan, while John Matuszek served as sports editor and Joe Geha filled the position of artist.

The long awaited night arrived. It was a beautiful May evening. From the sound of night noises — crickets and birds chanting their vesper call and cars whizzing by on Bancroft Street we entered — to the strains of music from KISMET — into an Arabian Nights world.

The Juniors with ingenuity, had decorated the gym in an Arabian night motif from KISMET — Arabian tents, swaying palm trees, even an oasis "in the desert" with a fountain of water giving refreshment to those who "had travelled the desert from far and wide". We danced to the smooth rhythm of Jack Runyon and his band. We will long remember our sojourn in the land of KISMET.

Weekly Dances

*The dance gets livelier as
the witching hour nears.*

The dances at St. Francis, from record hops to proms, are always handled in the best of taste and are a feather in the cap of their directors. The school dances liven up nearly every weekend and are an excellent source of revenue for various school programs.

Besides this, they serve as a means for training the students in the social graces, which are now, and always will be, an important part of developing and maturing.

This is one of the pet projects of the Student Council, besides being responsible for the New Years Eve Dance, Mission Dance, record hops, athletic rallies, Homecoming Parade, Color Day and Track and Field Day. They are under the direction of Father Warren and Student Council Moderator Father Koelzer.

Helping Hands

The Brisson Association and the Chappuis Society are two very well-run organizations within the learned walls of St. Francis, consisting of parents and friends of the school. The aims of these two groups are to help St. Francis promote Catholic education and provide a social and religious atmosphere.

Father Raymond Navarre is the moderator for the Brisson. The board consists of nine enthusiastic men; John Hancock, President, Fred Bargmann, Vice President, John Higgins, Treasurer, Pat Tansey, Secretary, along with Frank Chlebowski, Dr. Geo. Mauer, John Preas, Robert Schoen and James Ward.

Their many activities throughout the year include Freshman Night, Camp Day, Christmas Song Fest, Golf Tournament, DeVilbiss Smokers and the four annual dances. These are greatly enjoyed by all.

The Chappuis Society has for its moderator, Father Joseph McNamara. The Officers are Mrs. H. E. Dalton, President, Mrs. W. J. Salwitz, Vice President, Mrs. John Preas, Recording Secretary, Mrs. R. J. McKenna, Corresponding Secretary, Mrs. D. E. Degnan, Treasurer and Mrs. P. E. Yost, Assistant Treasurer.

Though a new organization, the Chappuis Society is in full swing. Their first fashion show held this year was most successful as were the Valentine Card Party and the St. Patrick Day Dance. The Day of Recollection and the Annual Retreat are very self-satisfying for all who take part.

World of Uncertainty

Considering the turmoil in which the world exists, there is an appropriateness, a certain indefinable charm, in the athlete. This fascination which athletes hold is good, and at St. Francis it is preserved as a part of our growth toward maturity.

President Kennedy has advocated a full scale plan for physical fitness in our country. The essentials of this plan have long since been recognized and instilled in the framework of the St. Francis' curriculum. We can point with pride to our fine teams and the championship wrestlers as visible results of our efforts and determination. This will to win will stand us in good stead when we take our place among men in a World in Turmoil.

Knights Finish Grid Season With 5-4 Record

Toffler and Kelleher proudly accept the Hilton Murphy Trophy for the second consecutive year from Mr. Murphy.

The St. Francis 1961 football season opened with a bang, as we saw the Knights post convincing wins over Macomber and DeVilbiss, who later tied for the city league championship. In both contests the offense was tough and the defense unpenetrable; it looked as though there were no flaws in the St. Francis football machine.

About this time shudders started creeping up the spines of the other city league teams, and St. Francis continued its winning ways. A thrilling victory over Clay coupled with a rout of Rogers left the Knights with a 3-0 record, and a seventh place ranking in the state.

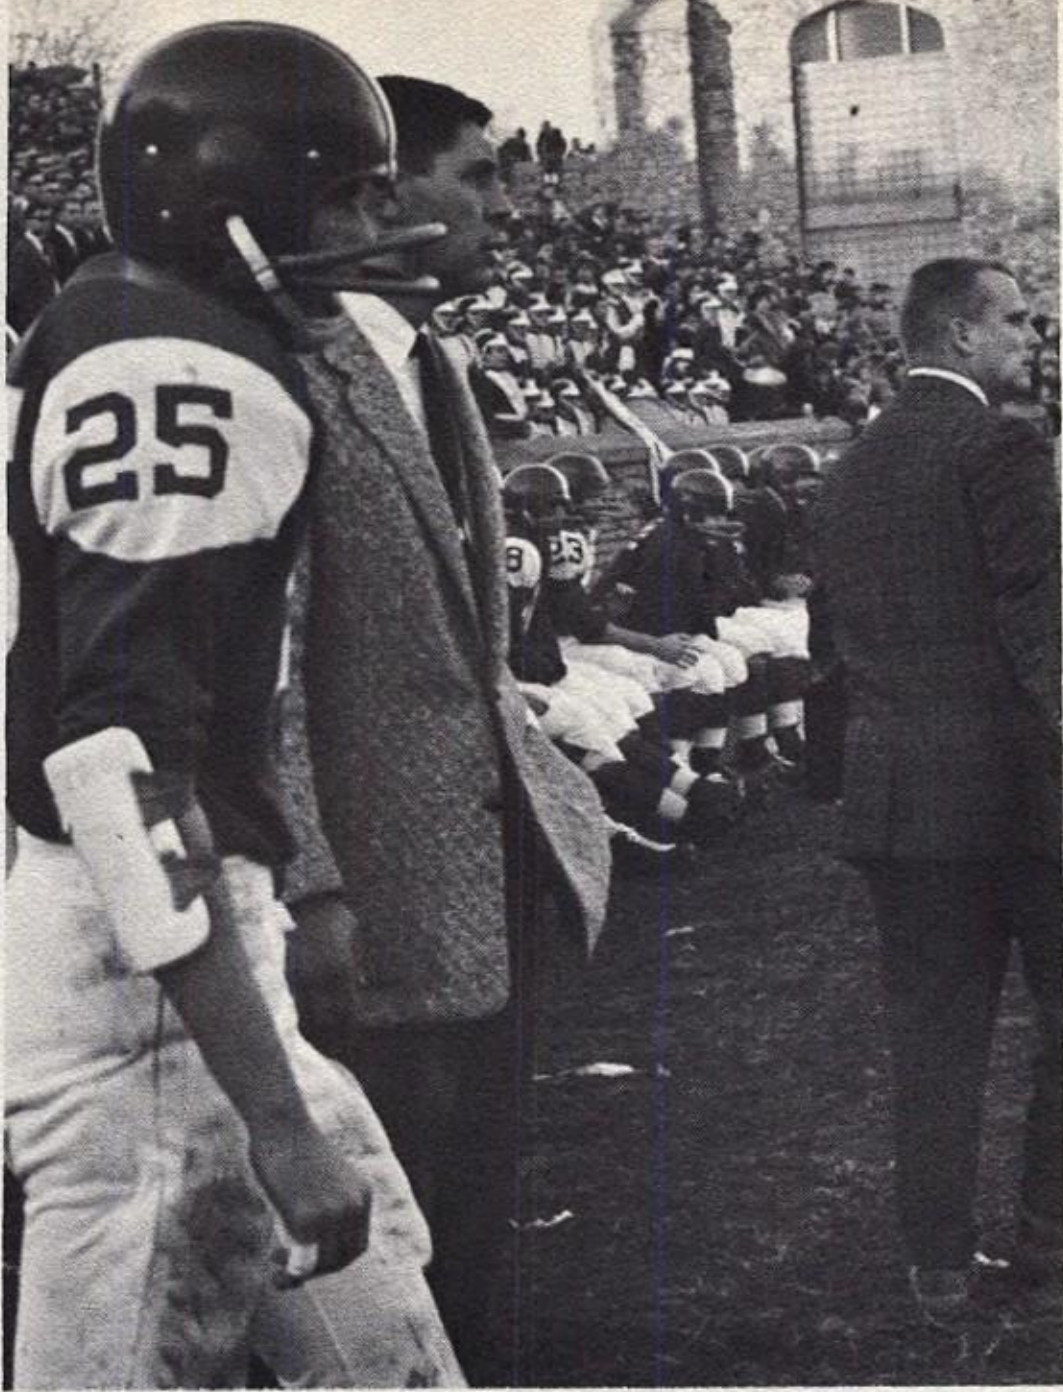

The Knights then set out for Cincinnati, but the Cavaliers from Purcell proved too tough. This plus a disheartening loss to Woodward left our record at 3-2.

Against Lima Central Catholic, St. Francis was determined to break into the win column and we did.

Both Central and St. Francis were up for our homecoming game. The Irish seemed just a little more intent, and for the second straight year walked off with the coveted Irish Knight.

We crushed Waite handily but lost to Dayton Chaminade. It was a rugged grind, but when it was over, the Knights could look with pride at their team.

Contemplating reinforcements, Coaches Mattingly and Vigh view the Central conflict from their vantage point on the sidelines while Gorman watches.

Brown shows two Irish aggressors his patented never-say-die drive.

Led by its alert quarterback, Tim Toffler, the Knight's offense starts grinding for another first down.

Tumbling, stumbling and fumbling marked the DeVilbiss-St. Francis contest.

Reluctantly, Terry Brown is downed by the lucky Irish.

Coyle "digs" his way through the Clay defenders for extra yardage.

fight to win

Before the season opened we knew that our basketball team was facing a difficult schedule. Lack of experience, depth, and most of all, height gave birth to the slogan "Short on height; long on drive". How true this was. When the season closed we had compiled a record of eight wins and eleven losses. But note this: of the eleven losses, seven were as follows: one by one point, three by two points, one by three points and two by six points. The team, although at times outclassed physically, never — in the true spirit of knighthood — gave up, but kept fighting until the final buzzer.

The St. Francis Lightweights, coached by Mr. Tom Minarcin, had a very successful season. Their record of thirteen wins and four losses shows that a promising future is in store for the Knight fans. Gary Hahn, Phil Provo and Paul Scheuer led the team's statistics: Hahn in scoring, Provo in rebounding and Scheuer in foul shooting. The team outscored their opponents by ten points per game with an average of 49.1 points to the oppositions 39.0. Three of their four losses were from the foul line. Coach Vigh is looking forward to working with the material that is coming up. The Co-Captains for this years Lightweight Team were John Hancock and Paul Scheuer.

DISTRICT CHAMPIONSHIP

At the beginning of the wrestling season, the team had a large order to fill — that was to improve on last year's record, in which we lost only one match. Our grapplers far surpassed even the wildest expectations of the coaches and proved themselves the best this area has ever seen, going unbeaten in seasonal meets and copping the district championship. Our ten victories included one over Central. By going undefeated in dual matches, Vince King, Paul Elzey, Tom Webb, Tom Marciniak and John Kelleher achieved individual distinction, as did Haynes and Buerk by winning titles in their divisions. The team went to Columbus and there placed fourth in the state. King went on to take the state heavyweight championship. Credit goes to Father Cassidy, our coach, assisted by Doc Loeffler, our physiotherapist, who made our team a great one.

14-3 Record

During the past four years, under the coaching of Father Hermley, our tennis team has piled up an envious record of 54 wins, 9 losses. The banner year was 1959 when our netmen went undefeated at 20-0 and continued on to the state quarter-finals.

Last year our squad boasted a 14-3 record and a win over DeVilbiss, the city champions. This season the racquet-men take to the court under a new coach, Father Cassidy and should have another record season.

Have Winning Season

The 1961 Baseball Team, under Head Coach Mr. Minarcin and Father Kenney, had a very respectable 7-4 season. The loss of co-captains L. Krajewski and J. Burnor will be felt considerably. However, the return of three starting pitchers, J. Nejman, T. Webb and R. Bruce will lay a good foundation for a successful 1962 season. D. Simon and B. Lynch are co-captains for the 1962 campaign.

St. Francis entered into varsity track and field competition with its 1961 team. This first edition of the St. Francis speedsters gave the succeeding trackmen lofty marks for which to aim, and the spirit of rivalry has paid off with a group of fine athletes. The 1961 team's record was 2-4. One of the last meets was a victory over Ottawa Hills, which later won the Class A District Championship.

The six returning lettermen who will form the nucleus of the 1962 team are T. Brown, M. Cross, C. Preas, B. Huss, J. Koslovsky and J. Stanford. To back up these men much help is expected from B. Smith, H. Washington, D. Martin, P. Scheur, L. Carter, H. Bergman, J. Coyle, B. Huff, J. Kelleher and P. Walsh.

The 1961 team posted a remarkable 15-2 record and took the District title over twelve other schools. This year's team is capable of an even better performance. We are headed by two returning lettermen, J. Koperski and T. O'Reilly. Under the coaching of Father Komorowski, M. Malone, T. Horrigan, J. Ward, M. Paluszak, C. Emenecker and B. Knights Take Chess Championship

For the second consecutive year, our chessmen have won the City and Greater Toledo Chess Championship. With the final win over Sylvania, the Knights have now run up a string of 39 wins against no defeats over a three year period. Last year the team brought the first city title to St. Francis under the guidance of Father Hermley. This year, under Father Sarro, the chessmen have made a repeat performance.

Undefeated this year were P. Vidmar, F. St. John and D. Murphy. By a win over Dan Boyk of Scott St. John became number one man in the city.

Varsity Bowlers Finish Second

Larry Burok toes the mark trying for a double.

It is with great pride that St. Francis looks on its varsity bowling team, especially since this is the first year that the Knights have extended their skills to this capacity. At the end of the season the team held second place in the National Division of the Toledo High School Bowling League. As a result of this fine showing, each member received an individual trophy and earned for himself the right to participate in the National Junior Bowling Congress Tournament held in March.

The St. Francis keglers, R. Slaven, J. Sharp, L. Burok, M. Malone and T. Nowak sport proud smiles after a convincing victory.

In football, Sophomore 1 defeated Freshman 1 in the Freshman-Sophomore division with a 9-6 victory. In the Junior-Senior division, Senior 2 beat Junior 4, 25-18.

In tennis, D. Fernandez of Junior 1 defeated J. McIlhargey of Senior 1, a favorite to win the title, to capture the tennis crown in the Junior-Senior division. In the Freshman-Sophomore division, A. Johnson of Sophomore 1 bested T. Radecki, also from Sophomore 1.

In golf, T. O'Reilly of Junior 2 defeated runner-up J. Reece of Senior 3 to capture the crown in the Junior-Senior division. In the Freshman-Sophomore division, B. Reece of Freshman 1 defeated D. Bagrowski of Sophomore 4 to capture the Underclassmen's crown.

Out of the darkness
of ignorance into

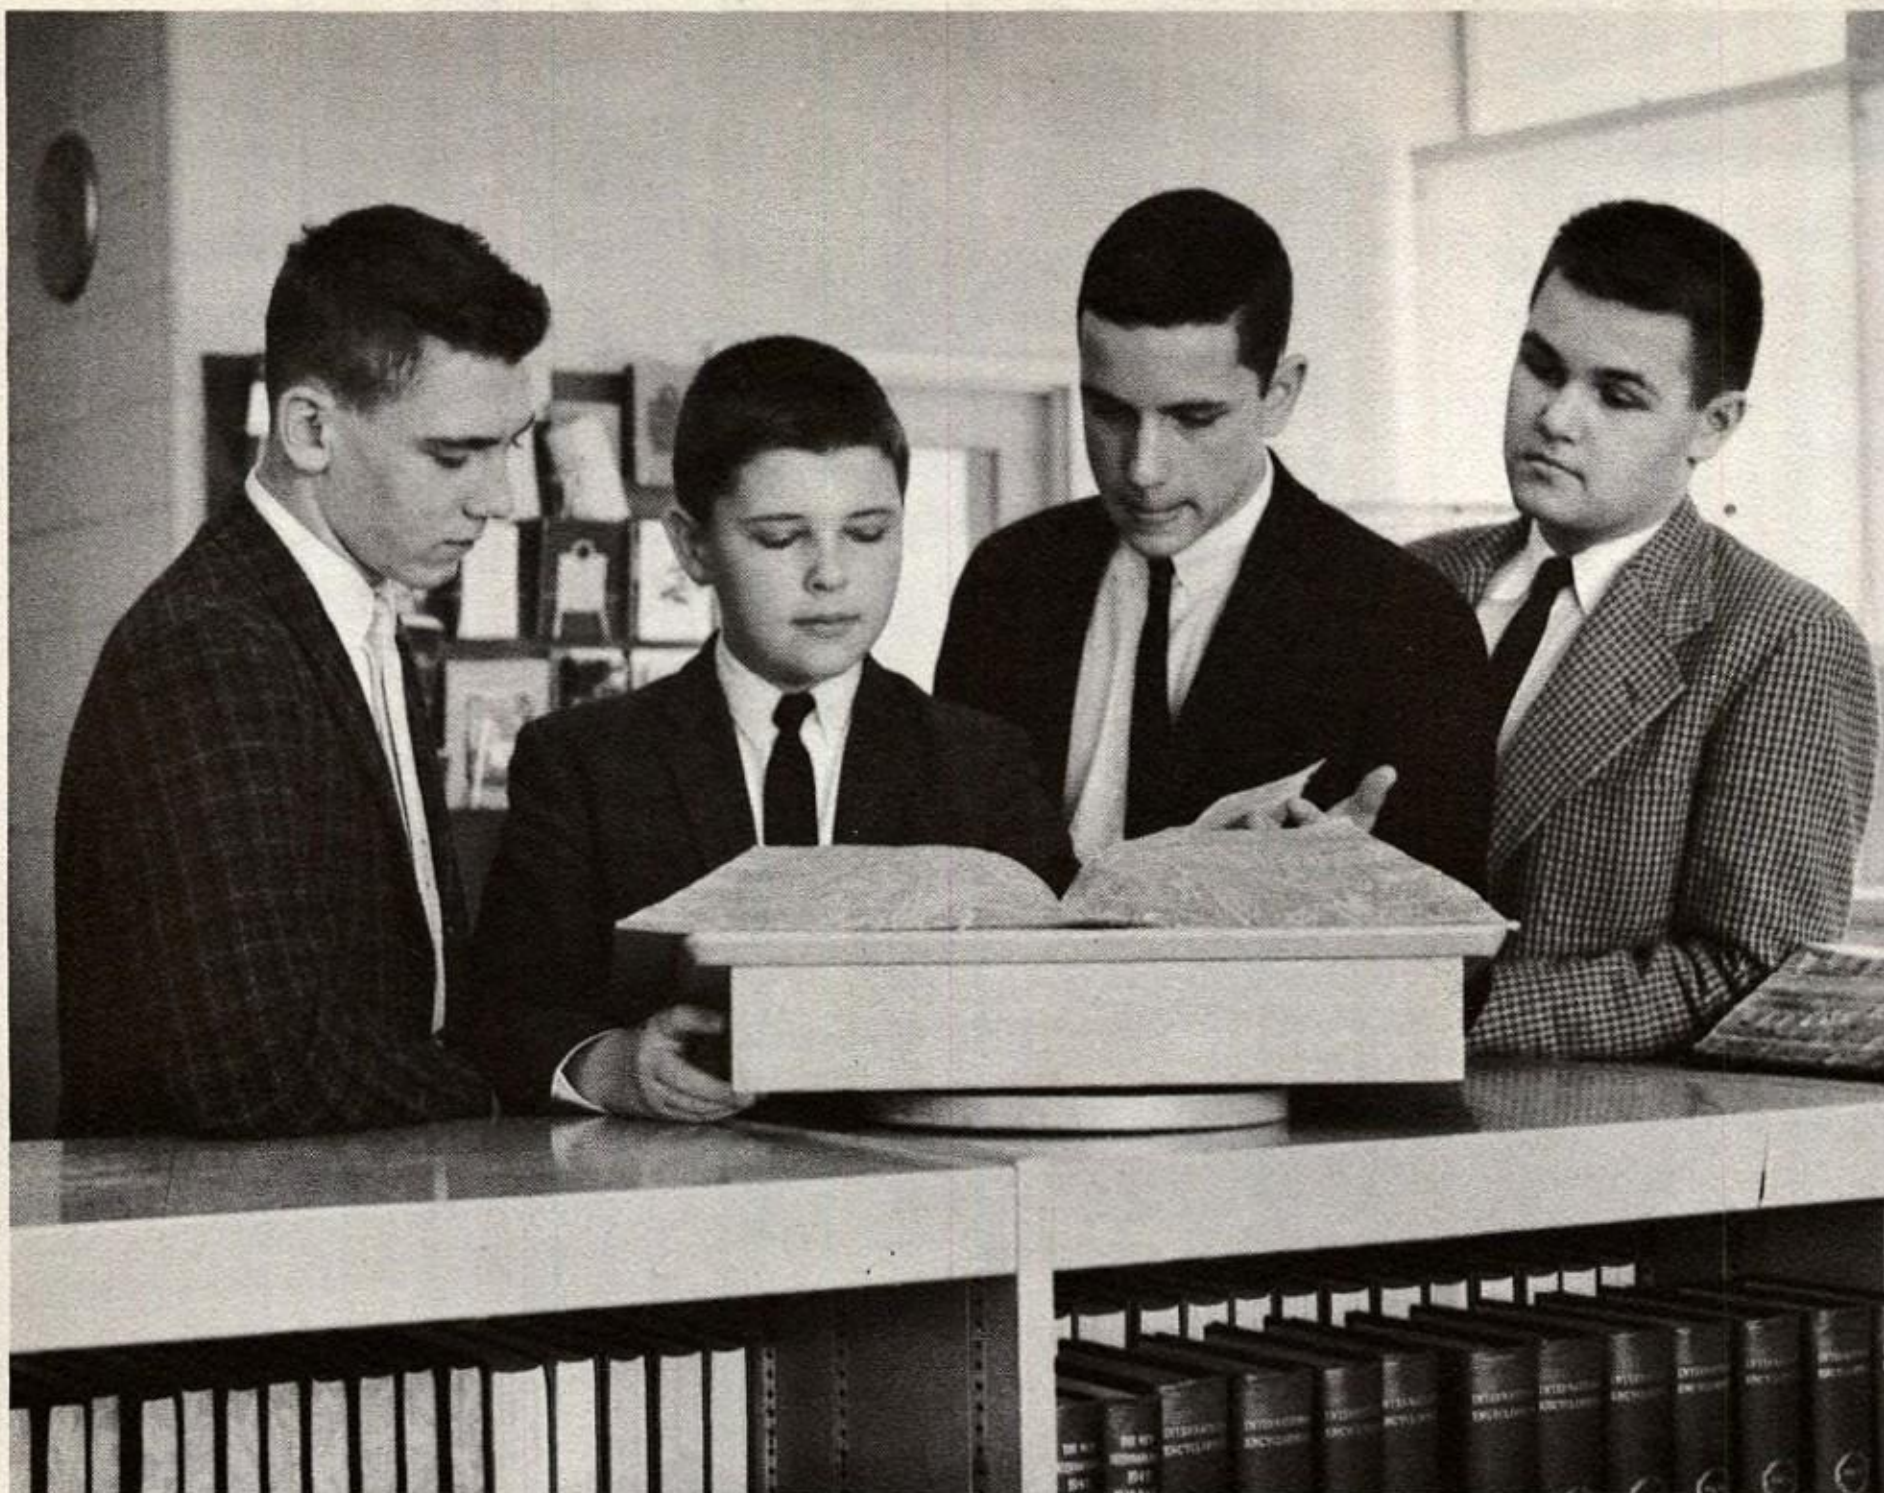

The Light of Intellectual Maturity

The principles advocated three centuries ago by St. Francis De Sales are very much alive today in the halls of our school. Due to the steady influence of our Oblate teachers, these principles permeate the atmosphere from the quiet of the chapel to the activity of the locker room. Our patron's loyalty to God, dedication to scholarship, devotion to incorporating Christian ideals into our way of life, still thrive among us.

As the picture shows, the St. Francis student is involved in a constant changing process, working his way slowly out of the intellectual darkness surrounding the Freshman, up through the Sophomore and Junior years which unlock the doors to latent talents, to the Senior who basks in the light of knowledge and maturity. These principles, faint and obscure as Freshmen, have attained meaning for us as Seniors. They are the principles which we take with us into the World in Turmoil.

Symbolized in Annual Senior Ring Ceremony

On the Feast of the Maternity of the Blessed Virgin Mary, October 11, 1961, the Senior Class of 1962 received their class rings. As in the past, the Seniors were accompanied by their mothers for this

memorable occasion. This activity marks the first step toward graduation for all the Seniors. Below, Mike Haynes kneels solemnly to receive his ring from Father Shugrue.

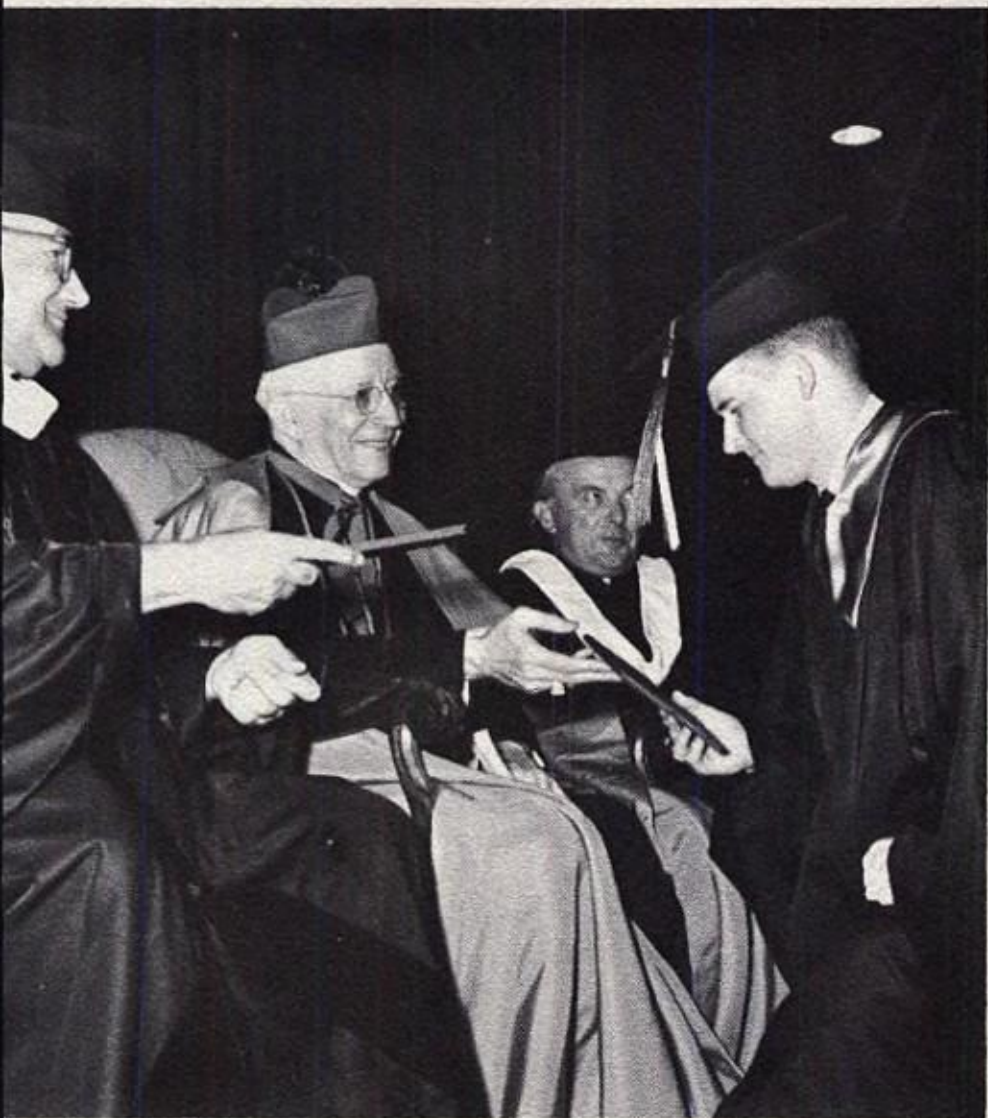

From St. Francis the long black line, well prepared intellectually, spiritually, physically, enters the

World in Turmoil

As the long black line wound its way to the table to receive the diplomas and shake the many congratulatory hands, each Senior knew that he was leaving a part of himself here at St. Francis. Four years is a long time in anyone's life, but these years spent at St. Francis were of special significance. They saw a youth of thirteen or fourteen grow and develop into a young man who now was setting out on his own into a cold world which pulled no punches nor gave any quarter. The transformation must indeed have been great, to change a naive freshman into a person who called himself mature enough to cope with that world. As each Senior received his diploma and walked slowly away, he felt he had just passed a turning point in his life; he realized that this was his final reward, the climax of four happy and all too short years. But all good things must come to an end and this is like the others, happy, yet melancholy; gay, yet pensive. Even to the last, there is that contradiction, so typical of this World in Turmoil.

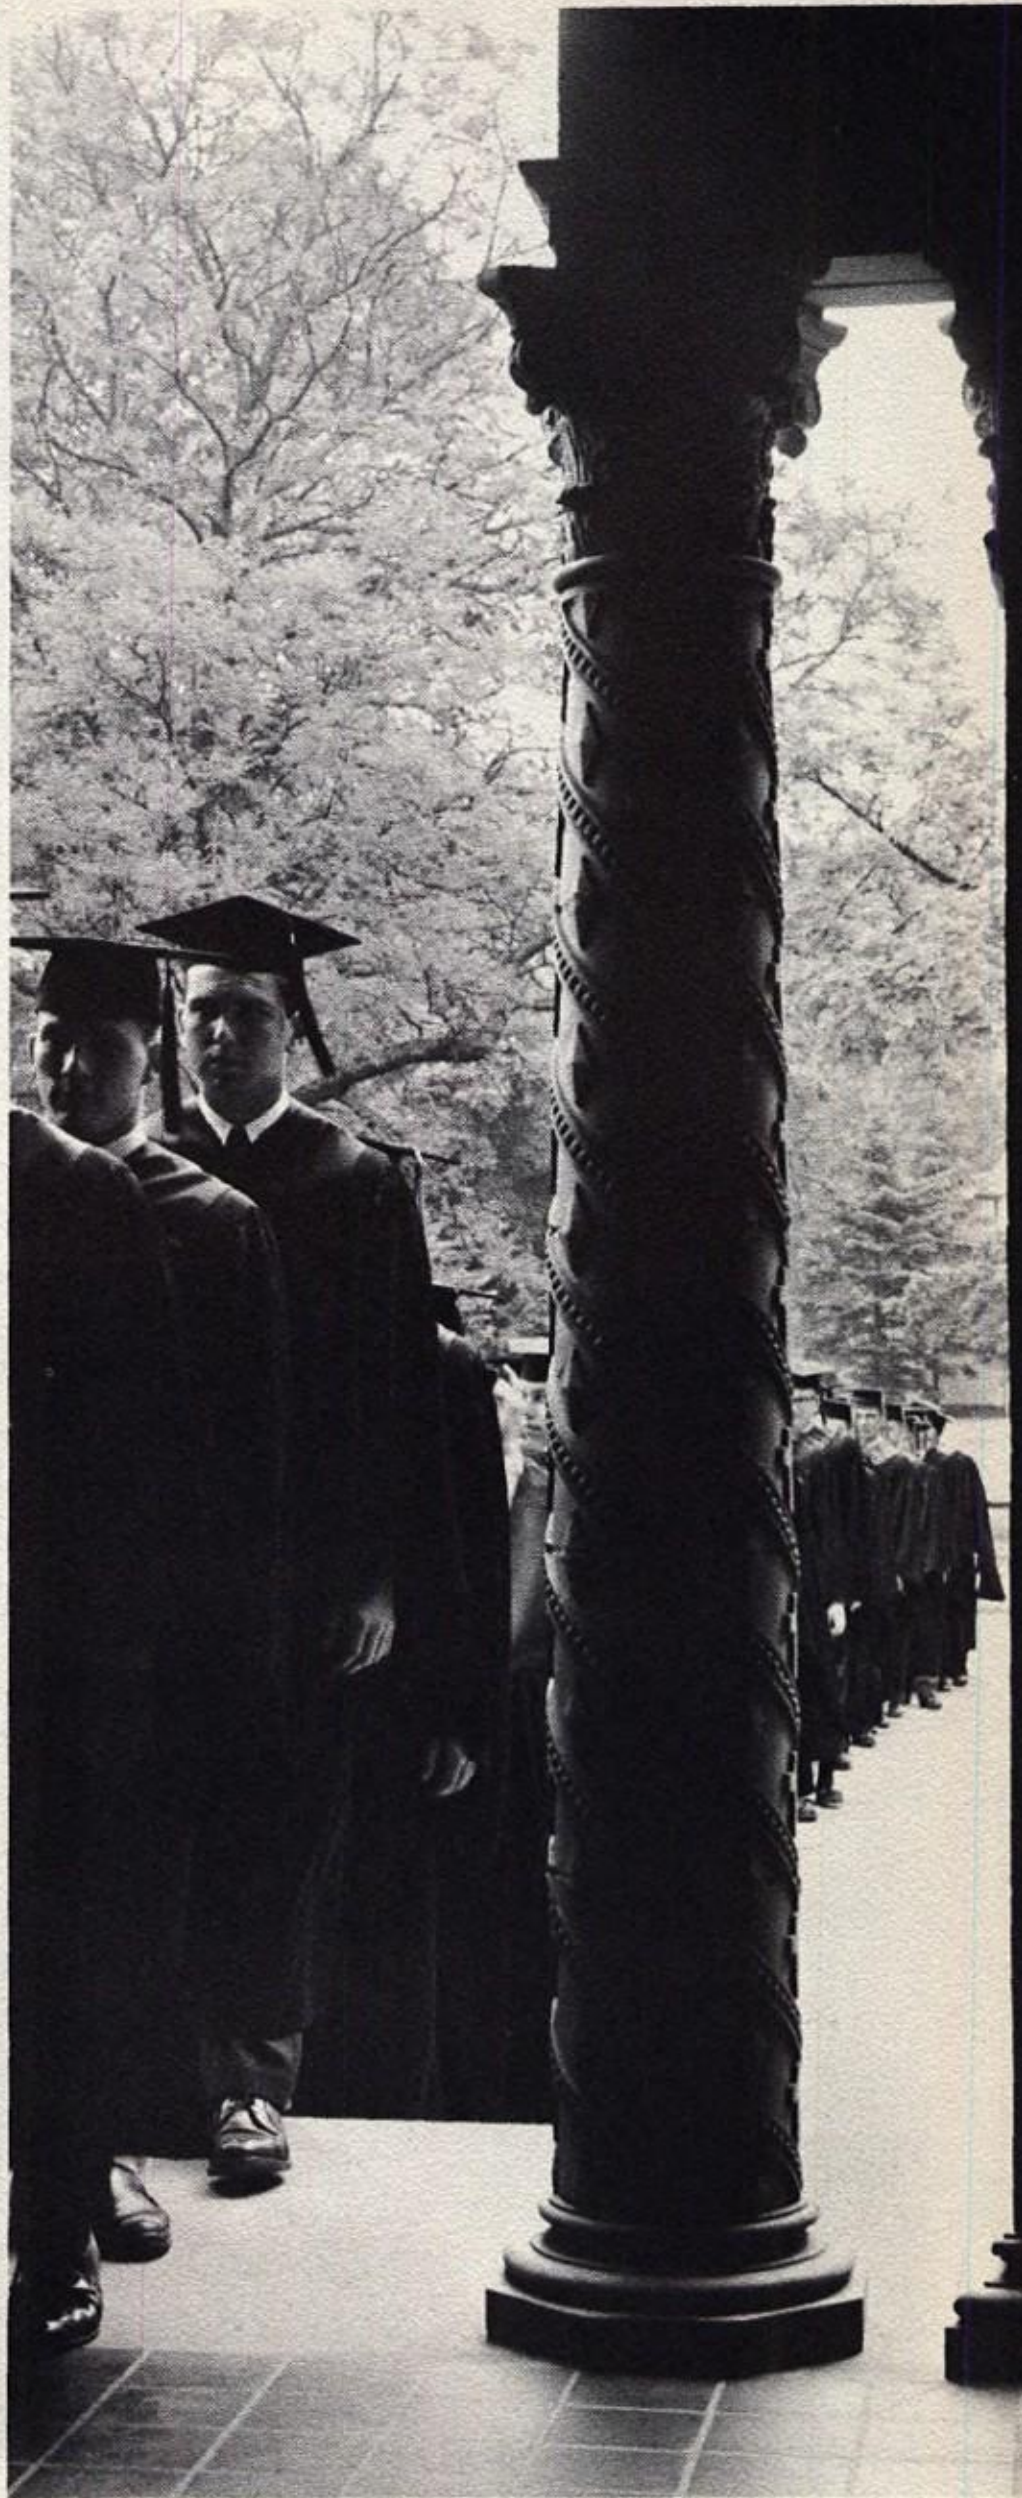

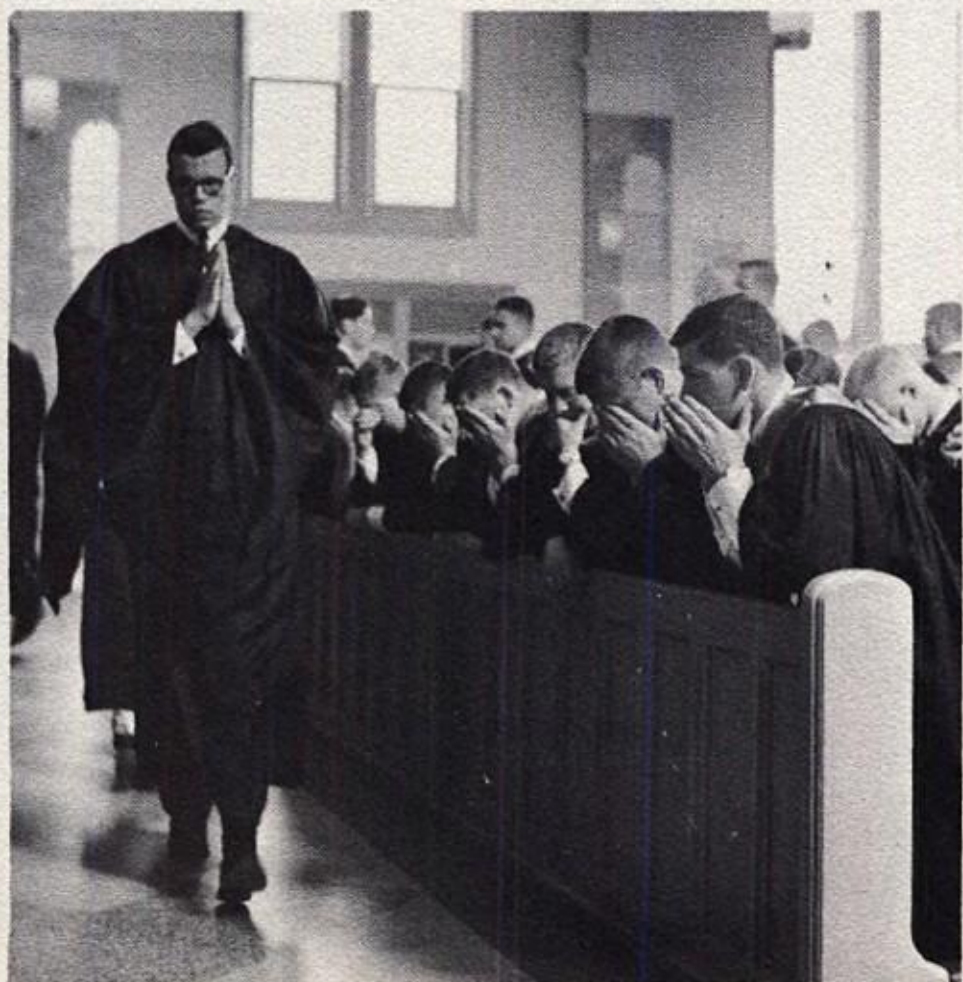

The great moment has arrived.

The Seniors enter church for Mass.

The spiritual must not be neglected.

One of the big events of the school year is the election of class officers. Here we see the close of the Freshman Convention at which Patrick Wright, Freshman One, was elected President of the Freshman Class. This election was conducted with all the fanfare of the Democratic and Republican Conventions. In this picture some of the boys gleefully surround Wright to congratulate him on his victory.

As the day draws to a close

All Is Quiet on the Western Front

THE ACCOLADE is finished. As we stand on the front steps of St. Francis this late March evening what could be further from "The World in Turmoil" than this peaceful scene on West Bancroft. In compiling our yearbook we were, as indicated in the theme of the book, most conscious of this "World in Turmoil" — the hatreds, fears, cold wars, uneasy peace, threat of Communist domination. Perhaps we have painted a dark, pessimistic picture. However, facts must be faced. So this evening as we watch, in a moment of relaxation, the sun bursting from behind dark clouds as it sets in the West, we are reminded of the symbolism therein. The dark clouds, heavy with impending rain, signify the pressures of uneasiness, fears, anxieties, hatreds and, possibly, devastating war. But the sun always breaks through the clouds to dispel their darkness. This evening, then, we find a ray of hope.

The sun has been breaking through the menacing clouds for five billion years so the cosmogonists tell us. The sun means light, warmth and life. The sun symbolizes the Son of God Who is the Light, the Warmth, the Life of the World and the Spark that enkindles man's soul. It is the Light from Above which gives us hope and confidence in the greatness and sublimity of man's destiny. This is the meaning of the sunburst design running throughout our book. Surely man is not a cosmic accident, something that just happened without rhyme or reason, something that just stumbles down the corridor of time to oblivion and the Great Void. Man bears on his soul the imprint of Divinity and it is our task to help this light to shine through hatreds and conflicts and to light up the world where there is darkness. God said:

**"LET THERE BE LIGHT,
AND LIGHT WAS MADE"**

ACKNOWLEDGMENTS

The staff of the Accolade wishes to acknowledge assistance, beyond the call of duty, from the following individuals: Father Shugrue, our Principal, and Fathers Healey and Navarre . . . Mrs. Michum and Mrs. Gallow who typed the index file cards, and particularly Mrs. Mary Bargmann, who did all the typing of yearbook copy for us . . . Mr. and Mrs. Mack Suprunowicz, of Modern Yearbook Company, Mt. Clemens, Michigan, for their helpful suggestions and special assistance with the layout of the book.

ST. FRANCIS DE SALES
